numerous.

S. H. Janes wrote, complaining of the number of cattle running at large on Avenue-road and vicinity. William G. Humphries of Todmorden wrote to the same effect. The clerk was instructed to write each of the gentlemen and enclose copy of bylaw, which provides for the impounding of cattle so running.

for the impounding of cattle so fring.

The Treasurer reported that the overdraft at the bank on Saturday last amounted to \$58,253.14.

Engineer Gibson reported that the cost of filling in the ravine near Victoria Park will be nearly \$2000. Mr. Dingman appeared on behalf of the Scarboro Electric Railway, and stated that the company is prepared to pay its share of \$500 towards the improvement. A committee, composed of Messrs. Lucas, Sylvester and the Reeve, was appointed to confer with the different parties interested, also the Council of Scarboro Township.

boro Township.

Opening Up Woodbine-avenue.

In the matter of opening up the northerly part of Woodbine-avenue for public travel, the Engmeer reported that to open up the direct line in the original allowance would require the cutting of five bad hills and the building of two bridges, one over the east branch of the Don and the other over one of its branches, which would cost about \$250. The total cost for bridges, grading, etc., would be not less than \$2000. If a deviated road could be made on lots 10 and 5 in the second concession the cost would be about \$600 for work and materials, and would make a good road at first, whereas the direct route would give rise to an annual outlay.

The Engineer also reported that the opening up for travel of the Government allowance for road along the north side of lot 10, concession 2 from the bay, from the east end of side road, westerly to the Don-road, would likely cost about \$2500 on account of a succession of hills and valleys. If the road could be diverted the cost would be made a fair road. As the land belongs to Mr. J. H.

han one-half and could be reduced lead han one-half and could be made a fair oad. As the land belongs to Mr. J. H. might not be difficult to secure tions. The reports were filed reference.

A motion was introduced for the payment to the clerk and assessors the amounts charged for making special assessments, preparing the rolls and levying rates for the local improvements for 1894.

The reeve strongly objected to the pay-The reeve strongly objected to the payment of these sums, on the ground, that a clerk and treasurer is employed to perform these duties, and if their salaries are not large enough he for one was prepared to vote for an increase in salaries rather than have these extras cropping up from time to time.

Mr. Heslop coincided with the reeve and the matter was left over for future consideration.

Messrs. Bull & Werrett, solicitors, wrote that on Thursday last the Hon. Justice Rose quashed the Richmond Hill bonus bylaws (Hill v. York and Murray v. York), with costs to be paid by the

The solicitors also stated that they had written each of the members of the councils of the years 1891-2-3, enclosing a statement of the moneys paid to them, and requesting a cheque for the amount claimed to have been overpaid. Mr. George Wood waited on the solicitors, as also did Mr. Macdonald, and in response to his request a statement was sent him of the amounts which have been claimed to have been improperly paid.

ponse was received from the embers, and the matter was furily over until the 8th inst. tion.

"I exceedingly regret this aspect of the case, because if the members of your committee had taken an active interest in arranging for the convention it would doubtless have been more creditable to the city. As it was our visitors, when they reached here, as stated by them, found matters in a very unsatisfactory condition and were obliged to take hold of the convention and run it. Fortunately for the credit of the city, Mr. Oliver Howland was placed upon the principal committee."

Howland was placed upon the principal committee."

Mr. Blain called attention to the following facts:

1. The improvement required for the development of the trade of the great west with the seaboard was part of the basis of confederation, and it was stated at the time that "our canal system must be improved so as to accommodate the large trade that is coming from the Northwest."

2. In 1874 the Dominion Government adopted the poircy of enlarging the capacity of waterways between the great lakes and the sea, the canals to be 14 teet deep, the locks 270 feet long and 45 feet wide.

3. On March 19, 1890, the Premier of

IGNORIO.

A Large Amount of Business Transacted at Vesterday's Session.

The regular meeting of the York Township Council was held yesterday, all the members being present, with Reeve Hill in the chair.

The Council were able to go through a large amount of business, as the delegations looking for sidewalks, now that the season is advancing, are growing less numerous.

Large Amount of Business Transacted at Vesterday's Session.

The regular meeting of the York action of the Government in dealing with the required improvement of our great national waterways has been dilatory and unsatisfactory.

5. Without constant pressure there is great danger of further unnecessary delay.

The president's report was adopted by the council, and copies were ordered to be sent to the Boards of Trade in Montreal, Hamilton and Kingeton.
