ON THE
Philosophy of Marriage and the Secret In-
fluences of Youth and Maturity.
With fifty Coloured Engravings on Steel.
In a Sealed Envelope, price 2s. 6d. sterling.
SELF PRESERVATION: an Analytic
cal Investigation of the Physiology
and Functions of Marriage in all the be-
ings in which it is an important subject affec-
ting the health and happiness of man, with its
disqualifications, and impediments, tracing
their origin to the effects of juvenile soli-
tary habits, youthful excess, tropical climates,
of close study; followed by practical re-
marks, founded on twenty years' experi-
ence in the treatment of impotence, her-
ven debility, local weakness, spermator-
rhea, syphilis, and all diseases of the urinary
and generative system. Illustrated by
fifty Coloured Engravings on the anatomy
of the reproductive organs and their rela-
tive conditions in health and disease. By
SAMUEL LAMBERT, M.D. No. 37,
Redford-square, London, Doctor of Medi-
cine, Matriculated Member of the Universi-
ty of Edinburgh, Honorary Member of the
London Hospital Medical Society, Licen-
tiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to
point out, the fearful consequences result-
ing from certain habits, irregularities and
excesses, which have produced more mis-
ery in youth, degradation in manhood, and
premature decay at all stages of life than
perhaps, any other class of disease known
to modern pathologists. Its perusal is par-
ticularly recommended to persons entertain-
ing secret doubts of their physical condi-
tion, and who are conscious of having haz-
arded the health, happiness and privileges
to which every human being is entitled. The
contents embrace the origin, effects, pre-
vention and treatment of the deplorable
catalogue of maladies connected with ner-
vous debility, exhaustion of the vital ener-
gies, prostration of mental and physical
capacity local and general weakness, acute
and chronic spermatorrhea, and their end-
less modifications. The treatment adopted
is founded on experience gained in the most
celebrated schools of medicine, and by the
most eminent practitioners, both in Great
Britain and in Continental Europe. Every
peculiarity relating to the physiology, pa-
thology, and general treatment of the dis-
ease is explained, and the means of im-
mediate relief and ultimate cure described in
detail. The professional reputation of Dr.
Lambert, who has taken the most distin-
guished medical and academic honours, at
home and abroad, is in itself a sufficient
guarantee that those who may place them-
selves under his care will, in every instance
meet with that delicate consideration and
unobtrusive secrecy which are so requisite in
the treatment of these cases.
