

STOCK SCALE.

Even Balance Scales,
Grocers' Scales,
Meat Scales,
Butter Scales,
Special Dairy Scales,
Butchers' Scales,
Steelyards,
Platform Scales,
Warehouse Scales,
Hay Scales,
Cattle Scales.

In Quality, Accuracy and
Beauty of Workmanship, un-
surpassed.

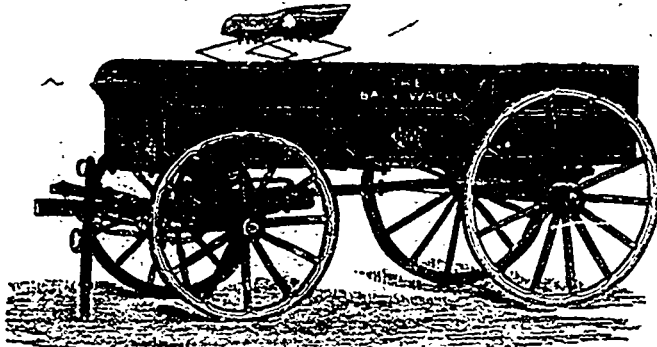

Capacity, 4000 pounds; platform, 6 feet by 4 feet. This Scale is designed expressly to meet the wants of Stock-Raisers and Cattle Dealers, and will supply, in a great measure, the place of the ordinary large Hay or Wagon Scale. It is strongly made, and finished in first-class style, and is adjusted with such exactness that it will weigh accurately from 1/4 lb. to 4000 lbs.

THE BAIN WAGGON

— IS THE —

FARMERS'

FAVORITE

BECAUSE IT IS THE LIGHTEST RUNNING WAGGON MADE.

No inferior iron is used, and special attention is paid in ironing it off. The wheels before the tire is put on are thoroughly saturated in boiling linseed oil, which is a sure preventative for loose tires. The patent arms made from our own patterns are superior to those made by other makers. All material used in painting it is of the finest quality, which gives it a superior finish. Every wagon is inspected in all its parts by one of the members of the company before being sent out. It is just as represented every time.

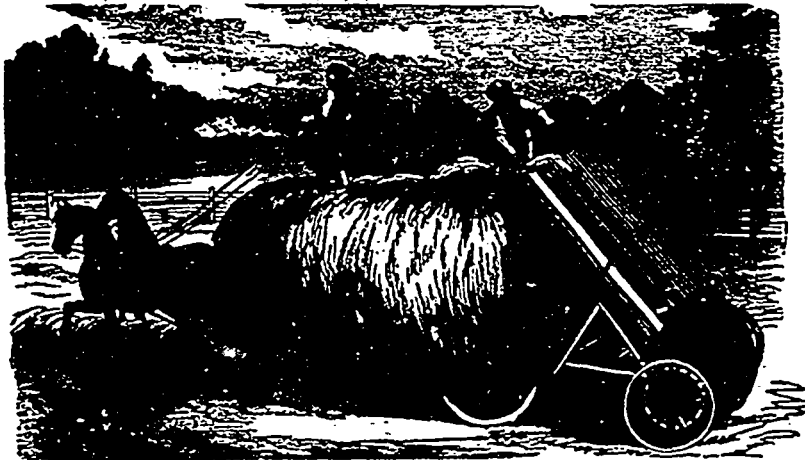

AGENTS WANTED FOR EVERY COUNTY. Send for descriptive circular and prices to the

MATHEW WILSON & CO., MANUFACTURERS OF HAY TOOLS,

SPECIALTIES—Hay Loaders, Hay Tedders, Hay Forks and Carriers.

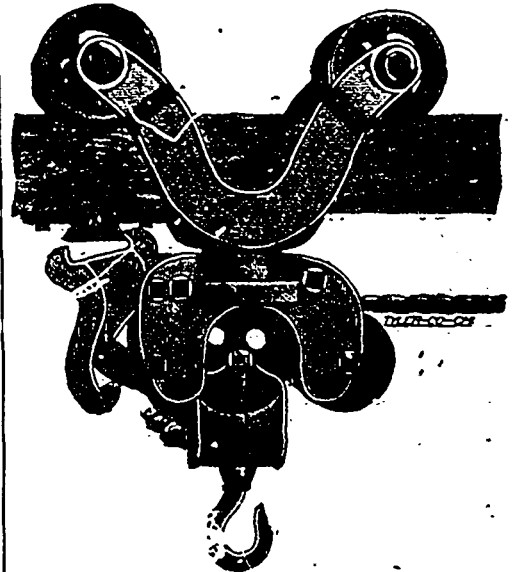

HAMILTON, ONTARIO.

The wonderful success of our Hay Tools the past season has induced us to increase largely our out-put for 1886. The Foust Hay Loader has undoubtedly proven the best Hay and Grain Loader in the market. Our Loader for this season has still further improvements, suggested by last year's experience in the field, and we now offer it as the only perfect Loader made: with a boy to drive and one man to load, it will do the work of three men pitching on. The Grand Rapids Tedder—In our search for the best tedder made in the United States, we selected the Grand Rapids, believing from its construction it was the most servicable and best machine in the market, and from the test of their working qualities in the past season, we are convinced that our judgment was correct, for with a horse, and a boy or girl to drive, it will do the work often men, and more thoroughly. As a manure spreader it works as well as many of the high priced machines for that purpose or descriptive catalogue, address **MATHEW WILSON & CO., HAMILTON.**

ONTARIO PUMP COMP'Y

We wish to invite attention to the fact that we now manufacture the most complete line of Haying Tools in Canada.

The above cut represents the

Standard Swivel Carrier

The Best Swivel Hay Carrier Made.

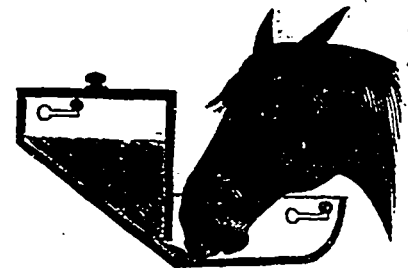

It is provided with an adjustable stop, which holds it firmly in its position, parallel with the track. No other Swivel Carrier has this improvement.

This Carrier may be changed to run in either direction at a moment's notice, and without leaving the barn floor. It has the Wood Bushed Wheel, and the *Locking Apparatus* as the Standard Four-wheel Carrier. It is strongly made, easily operated, and guaranteed to work perfectly.

Send for descriptive catalogue of our full line of Haying Tools before purchasing elsewhere.
