Guernseys.....	3	
Grades	8	

Total in dairy dept..... 41

Total in all departments..... 671

To be continued.)

What is the most profitable lamb? Some who read of spring lambs being sold for \$8 or \$10 each think this kind is the one to have. But the truth is that when the expenses are figured up this kind of lamb comes in with the Christmas strawberry and the winter-grown grapes, as a costly luxury to both consumer and producer.

Dwarf Essex rape is not a grass or hay plant, but belongs to the same order of vegetation as the turnip and cabbage. It is a fast growing, grazing and soiling plant, and must be sown annually, as the roots will not survive the hard freezing of winter in the middle and northern latitudes. For broad cast seeding four or five pounds of seed to the acre is about the right thing. For sowing with oats, or in the corn field at last cultivation, from two to three pounds to the acre, and about the same amount when sown in drills twenty-five or thirty inches apart for cultivation.

ALEXANDRA AND MÉLOTTE CREAM SEPARATORS

ALL SPRAYING, DISINFECTING AND WHITEWASHING CAN BE DONE WITH THE SPRAMOTOR

It is the result of most careful and exhaustive experiment. Each feature was thoroughly tested before being placed on the market.

SPRAMOTOR CO., 357 Richmond St., LONDON, ONT.

Toronto, November 9th, 1898.

Spramotor Co., London, Ont.,

Gentlemen,—The machines for spraying and whitewashing you have supplied to Dentonia Park Farm have done their work well, and are quite satisfactory. I could not have believed there was so much value in spraying fruit trees. We had a good crop of apples, whereas our neighbors who used no spraying machine had practically none. Yours truly,
W. E. H. MASSEY.

Certificate of Official Award:

THIS IS TO CERTIFY that at the Contest of Spraying Apparatus held at Grimsby, under the auspices of the Board of Control of the fruit experimental stations of Ontario, in which there were eleven contestants, the Spramotor, made by the Spramotor Co. of London, Ont., was awarded First Place.

H. L. HURT, H. PATTIT, Judges.

If you desire any further information, let us know and we will send you a 72-page copyrighted catalogue and treatise on the diseases affecting fruit trees, vegetables, etc., and their remedies. Agents Wanted. Mention this paper.

To Dairymen of Manitoba and N. W. T. Districts:

We beg to call your attention to our having opened a Branch of our business at Winnipeg, where we will carry a complete line of all articles required in the manufacturing of Butter and Cheese, for either Creamery or Dairy, and at such prices as will enable you to save money.

Heading lists of goods stands the full line of "De Laval," "Alpha" Power and Hand Separators, which are to day conceded by our leading Experiment Stations and Dairy Schools, as well as advanced Creamery and Dairymen, to be the best cream separators on the market to day, and other goods of the same standard of merit, which will appeal to all dairymen as worthy of their consideration before purchasing elsewhere.

Our object in opening this branch is to be near the dairymen of Manitoba and the N.W.T., so as to better serve those who have favored us with their patronage in the past, either direct or through local agents, and to acquaint ourselves with new customers. All of which will result to our mutual interest.

The users of any style of "De Laval" separators, who are not fully posted on operating same to best advantage, or those desiring any more information on the Separator question, we shall be pleased to hear from, assuring them that such enquiries will have prompt and satisfactory attention. Any who contemplate the purchase of a cream separator this spring, we should be pleased to hear from, so as to send them reading matter that will prove of much interest and benefit, giving experience of dairy authorities on cream separators, showing first cost is not the only consideration in a separator purchase. If what facts we produce are not convincing enough to any intending buyer that the "De Laval" "Alpha" Separators are the best, we will be pleased to place one of such separators in any dairy on a 15 or 30 days' trial, against any cheap infringing separator, to prove by practical results that the "DE LAVAL" is not only the Best but also the Cheapest. Let us hear from those in any way interested.

For further information or particulars, address

THE CANADIAN DAIRY SUPPLY CO.,
236 King St., Winnipeg, Man.

We want local agents in every Dairy District.
