

College Note Book.

STUDENT LIFE.

MR. TOWNSEND, who had been confined to his room for some time with a severe cold, is around again.

A. H. McDiarmid, left for home two weeks ago. He has been in ill health, and, we believe, has decided to give up study. Mr. McDiarmid, by his quiet, earnest demeanor had endeared himself to his fellow-students who sympathise with him.

J. W. Flinn, has been called upon to pass through deep waters of affliction. The death of a sister called him home, and after arriving there his father died. The whole college feels with Mr. Flinn in his sore bereavement.

Messrs. Notman & Son, have kindly extended an invitation to the students to view four very large photographs of mountain and lake scenery, which they have at present in their studio. The scenes are :—Emerald and Louise Lakes, Otter-Tail Range near Palliser, and Asulkan Glacier in Selkirk Range, all in British Columbia. Two of them are intended for Club-Houses in the Alps.

The examinations are within a measurable distance, and the lamp is brought out of the closet and replenished with oil.

Mr. R. McDougall had been chosen to represent McGill at Toronto University, and was a spectator of the great fire.

The JOURNAL staff was photographed recently. There is a far away troubled look in the eyes of the business managers as if they were worrying over unpaid subscriptions, while the editors are apparently doing their best to look like men of genius.
