

To Nursing Mothers!

A leading Ottawa Doctor writes:
"During Lactation, when the strength of the mother is deficient, or the secretion of milk scanty,

WYETH'S MALT EXTRACT
gives most gratifying results." It also improves the quality of the milk.

It is largely prescribed
**To Assist Digestion,
To Improve the Appetite,
To Act as a Food for Consumptives,
In Nervous Exhaustion, and as a Valuable Tonic.**

PRICE, 40 CENTS PER BOTTLE.

Heating BY WARM AIR, OR COMBINATION (HOT WATER AND HOT AIR). Our Specialty.

MISCELLANEOUS.

"Tis pleasant through the loopholes of retirement to peep at such a world.—*Cowper*.

Repentance clothes in grass and flowers the grave in which the past is laid.—*Earl of Sterling*.

The man who starts out to reform the world generally needs reformation himself before he gets into the next township.

Dr. Low's Worm Syrup cures and removes worms of all kinds in children or adults. Price 25c. Sold by all dealers.

A despatch from Hong Kong says that an official report issued there gives the number of persons who died from the plague in Canton districts as 120,000.

Gentlemen,—I have used your Yellow Oil and have found it unequalled for burns, sprains, scalds, rheumatism, croup and colds. All who use it recommend it. Mrs. Hight, Montreal, Que.

The restoration of the Purdue Laboratory at Lafayette, Ind., recently destroyed by fire, is being pushed forward rapidly. It will be remembered that one of the features of this laboratory was a stationary locomotive whose wheels, in revolving, actuated the wheels of a testing apparatus, thus allowing the students to make a large variety of experiments in practical thermodynamics. This locomotive, the "Schenectady," has been returned to the University from the shops at Indianapolis, where it was put in thorough repair. The engine was backed over the new track, into the annex, laboratory, and directly upon the carrying-wheels of the testing apparatus, under its own steam, indicating the ease with which the new laboratory may receive any locomotive for testing.

I was attacked severely last winter with Diarrhoea, Cramps, and Colic and thought I was going to die, but fortunately I tried Dr. Fowler's Extract of Wild Strawberry, and now I can thank this excellent remedy for saving my life. Mrs. S. Kellett, Minden, Ont.

M. Perrotin (Paris Academy of Sciences July 9) notes that Mr. Charlois of the Observatory of Nice, who has been exploring photography a definite zone of the celestial sphere near the ecliptic, has discovered in two years by this means no less than forty-five asteroids, raising the total number with which he must be credited to seventy-two. In the course of his investigations, he found one hundred and twelve asteroids already known. If a table of asteroids in order of magnitude be constructed it is seen that in each order the number of new asteroids is less than that of the known ones, which seems to indicate that a comparatively small number remains to be photographed and that a tentative induction may be made as to the distribution of asteroids in space, in relations to their distance from the sun. M. Perrotin is now devoting himself to the study of M. Charlois' results, and this end in view.

Sirs,—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. Mrs. A. Normandin, London, Ont.

A curious story, illustrating the preservative properties of choke-damp, comes from China. In the province of Anhui a party of miners recently struck an ancient shaft, where history records that a great catastrophe occurred 400 years ago. The miners, on reopening the old shaft, came upon upward of 170 bodies of the former workers, lying where they had been overcome with foul gas four centuries back. The corpses were as if those of yesterday, quite fresh-looking, and not decayed in any way. The faces were like those of men who had only just died. On an attempt being made to move them outside for burial, they one and all crumbled away, leaving nothing but a pile of dust and the remnants of the stronger parts of their clothing. The miners, terrified, fled from the spot, and though there were valuable deposits of coal in the shaft nothing would induce the superstitious men to return to their work.

Minard's Liniment Cures Dandruff.

The Forth Bridge receives a new coat of paint every three years, and one-third is done each year, so that the painters are continually at work. Besides the painting, every part of the structure is carefully examined, and loose or defective rivets removed and new ones put in their place. About fifty men are employed, and an endeavor is made as far as possible to retain the same men upon the work, as it always takes new hands some considerable time to become thoroughly at home in some of the aerial positions they are at times called upon to occupy. At first this work was attended with considerable danger, but very complete apparatus in the shape of small cages having now been provided, the men run very little risk even at the highest and most dangerous points. It requires about fifty tons of paint to cover the bridge, and the area to be dealt with is something like 120 acres.

TO BEAUTIFY THE COMPLEXION

—do not take the cosmetics, paints and powders which injure the skin, but take the easiest way to gain a beautiful color and a wholesome skin. Health is the greatest beautifier. The means to beauty, comfort, and health for women is Dr. Pierce's Favorite Prescription. Dull eyes, sallow or wrinkled face, and those "feelings of weakness," have their rise in the derangements peculiar to women.

"Favorite Prescription" will build up, strengthen, and invigorate, every "run-down" or delicate woman by regulating and assisting all the natural functions.

To cure constipation, biliousness, indigestion, sick headache, take Dr. Pierce's Pellets. One a dose.

Sea-water has been converted into a beverage! A little citric acid or citrate of silver is added to the briny liquid, chloride of silver is precipitated, and a harmless mineral water is produced. An ounce of citrate renders a half-pint of water drinkable. Seven ounces would furnish a shipwrecked man with water for a week. The question is how to secure citrate to shipwrecked men. It is recommended that those who go to sea carry with them a bottle of citrate protected by an indiarubber covering, or that such bottles should be furnished in life-preservers. If, with presence of mind, shipwrecked folk remember to take these with them, all the agonies of thirst portrayed in nautical stories may remain unrealized fiction.

Bell Telephone Company,

Walkerton Agency, May 15th, '94.

Dear Sirs,—I sold your Acid Cure for 20 years, and during that time I never heard of a case that was not relieved and cured by its use. I have recommended it in bad cases of Eczema, Ring-worm, and never knew it to fail (when properly used) to effect a cure.

Yours truly, W. A. GREEN.

COUTTS & SONS.

TEN MILLION MEALS of NESTLE'S FOOD.

Were furnished the Babies of America in 1893.

The supremacy of Nestle's Food is because it furnishes Nutrition and is Safe. The danger connected with the use of Cow's Milk is avoided, as Nestle's Food requires water only to prepare it. To prevent Cholera Infantum and Summer Diarrhoea, begin the use now of

Nestle's Food

Sample and our book "The Baby" sent to any Mother mentioning this paper.
