BRYCE'S PAVEMENT

For Cellar, Brewery, and Stable Floors, Garden Walks, Etc.

For Lining Outside and Inside of Cellar Walls to Prevent Damp and Water Coming Through.

THE MOST PRONOUNCED SUCCESS OF THE DAY

This pavement is put down boiling hot and thus fills up every crack and crevice and can be used half an hour after being laid. No damp will penetrate through it, and with it you can always have a good dry cellar. Should the rain or damp come through your cellar walls we will cover the brick or stone with our composition and thus give you a perfectly dry cellar. We have just completed in this way with satisfaction the large new Bell Telephone Company's Building, for which Messrs. Darling & Curry were architects. We have laid all the walks in the Osgoode Hall Grounds by order of Mr. W. G. Storm, architect, and have now received the contract to lay all walks required at the new Victoria College, Queen's Park. Our pavement has been laid in hundreds of places with the greatest satisfaction and no complaints.

Have the rotten wood and damp bricks taken out of your cellar and your floor relaid with BRYCE'S PATENT ASPHALT PAVEMENT.

We have laid our Pavement for: Dr. Strange, Dr. Larratt, W. Smith, the Consumers' Gas Company, the Dominion Brewery Company, the O'Keefe Brewery Company, Mr. J. L. Morrison, the Elliott House, Mrs. Watkins, 15 cellars; Front St. opposite City Hall, Queen St. West from subway, and many other places throughout the city.
