#### A BENEFACTRESS.

Just open the door for her, and Mrs. WINSLOW will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our 'Susy' to say, 'A Blassing on Mas Winslow,' for helping her to survive and escape the griping, colicking and teething siege. We confirm every word set forth in the PROFECTURE. It performs preword see forth in the FROMATION. Is performs pie-cisely what it professes to perform, every part of it - nothing less. Away with your 'Cordial,' 'Bare-goric,' Drops,' 'Laudanum,' and every other 'Nar-CATHEDRAL LOCK, cotic,' by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Wisslow-know her only through the preparation of her 'Soothing Syrup for Children Teething.' If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents a bottle. Sold by all Druggists. Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP."

All others are base and dangerous imitations.

ACCIDENT .- There was an explosion in Doctor Ayer's Laboratory, yesterday, which caused some excitement in the vicinity. Ayer's Pills are manufactured under an enormous pressure, in cylinders like cannon, which sometimes prove too weak for the compressed forces, and burst with terrific violence. Fortunately, the pieces do not fly far, so that no one has ever been hurt by them. The action is more like ice than powder; but it makes Pills which all the world acknowledge are Pills.- [Daily Journal, Lowell. ĺm

A PUBLIC BENEFIT. - Nothing can be of more importance to the welfare of our community, than the health of our children; on this depends the future of our national greatness, and, in a large measure, the enjoyment of our own lives. We therefore claim, that in Devins' Vegetable Worm Pastiller, we have a great public benefit, a remedy so safe, so reliable, and so agrecable, which gives health and strength to the weak and sickly child, brightness to the eye, bloom to the complexior, and plumpress to the form. But parents should be careful to procure the genuine Pastille on each one of which is stamped the word " Device," all others are useless.

the system. With such change those complaints disappear. For **Bropsy** and **Bropsteal Swellings** they should be taken in large and request doses to pro-duce the effect of a drastic purge. For **Suppression** a large doss should be taken as it produces the desired effect by sympathy. As a *Dimmer Pill*, take one or two *Pills* to pro-mote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often ad-vantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digas-tive apparatus. There are numerous cases where a purgative is required, which we cannot enumer-ate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer donbt what to employ.

# Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Cough, Bronchttin, Astumat, and Consumption. Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the exist dence of mankind, as this excellent remedy for pul unonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in Meir estima-tion, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a re-liable protector against them. While adapted to mikler forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a pro-vision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled *Consumption* is though in-curable, still great numbers of cases where the dis-ease scemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Peetoral*. So complete is its mastory over the disorders of the Lungs and Throat, that the most obstinate of them, under the *Cherry Peetoral*. *Singers and Public Speakers*-find great pro- *tored* they subside and disappear. *Asthuag* is always relieved and<sup>6</sup> often wholly

tection from it. Asthma is always relieved and<sup>9</sup>often wholly

Astimit is inverse relieved and order when y cured by it. Bronchitis is generally cured by taking the Cherry Pettoral in small and frequent doses. So generally are its virtues known that it is un-necessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.
