

attended his efforts. Mr. Saunders believes that this action will strengthen the position of the house in the eyes of the medical profession, as it will secure a permanence of organization that will ensure the perpetuation of the business. Besides this, it will obviate the disadvantages incident to a large business that rests entirely upon the shoulders of one person, by permanently attaching to the house those whose ability and experience have contributed in bringing the business to its present state of prosperity. The Subscription and Publication Departments will be conducted as heretofore. The Trade Book Department will be under the management of Mr. W. D. Watson, whose connection with the house has extended over the past eight years, and who has demonstrated his ability to manage that department with efficiency and success.

*Warner's New Therapeutic Reference Book.*—Regarding this hand-book of therapeutics we wish to say it is one of the very few guides of its kind now offered to students and busy practitioners. As its preface states, it is not intended to teach graduates anything about therapeutics, but it is to be regarded rather as a handy aid to a poor memory. Many exceedingly valuable tables are represented, including the metric table, thermometric equivalents, etc., valuable tests for various matters, including urinary tests for albumen, sugar, etc., comparative values of certain foods, a complete dose table of drugs, a list of diseases and their remedies, hints as to indications of pregnancy, recommendations as to *post mortem* examinations, etc. The brief mention above gives but a faint idea of the many valuable departments of this new book. The subjects are interesting, and are written in such a manner as to give a comprehensive idea of what is in the author's mind. "Warner's New Therapeutic Reference Book" must not be confused with "Warner's Therapeutic Reference Book." The latter has been discarded, the new one taking its place. So many new features have been added, and the other parts entirely re-written to a great extent, that it may be termed a new book. It is bound in two styles: one leather, at 50c., and the other a leatherette at 25c. per copy, postage prepaid in both instances.
