The Backbone of National Prosperity

FARMING is by common consent the basis of our national wealth and prosperity. The farmers of Canada have, for the past two years, been getting top prices for what they have had to sell and have been able to obtain what they have had to buy at moderate prices. The war means better times for farmers.

Where the foundations of national wealth and prosperity are sound and assured, hopefulness may build her structures with confidence.

Business in Canada can and will be good if our business men will do their utmost to keep the bottom in business. Advertising is a good workman for this purpose.
