Company Summary

ICN Canada Ltd. is a subsidiary of ICN Pharmaceuticals, an international company with its head office in Costa Mesa, California, U.S.A. Founded in 1961, ICN Canada specializes in the research, development, manufacturing, distribution and marketing of pharmaceutical and surgical products used in such areas as oncology, dermatology, gastroenterology and psychiatry, as well as over-the-counter applications. The company's fully-integrated 9,000-square-metre (100,000-square-foot) manufacturing plant employs 200 people. ICN Canada's R and D laboratories are currently developing new products for treatment of cancer and viral diseases.

Sun screen dermatological care and treatment products from ICN.

Company Summary

Immunocorp, a division of Medicorp Sciences, is an early pioneer in immunodiagnostic testing, and Canada's largest manufacturer and distributor of immunodiagnostic products. Immunocorp is a fully-integrated company with resources that include a fully-automated manufacturing facility approved by the U.S. Food and Drug Administration, and a modern laboratory. Besides producing, distributing and marketing a wide range of immunoassay products worldwide, the company custom manufactures solid phase antibody-coated tubes for other manufacturers and distributes a line of genetic engineering reagents to molecular biologists.
