

conclusion of a convention banning the production of fissile material for nuclear weapons or other nuclear explosive devices.

77. We welcome the progress on strategic arms control made at Helsinki in March, and look forward to the early entry-into-force of the START II agreement and the initiation of START III negotiations. We reaffirm the key role of the Conventional Forces in Europe Treaty in strengthening European security, and welcome the decision to conclude its adaptation as expeditiously as possible. We welcome the recent agreement among Russia, Kazakhstan, Kyrgyzstan, Tajikistan, and China on reduction of military forces along their borders and consider it an important contribution to the region's security.

78. We endorse unequivocally efforts by the UN Special Commission and the IAEA to eliminate weapons of mass destruction capabilities in Iraq and to monitor compliance. We reaffirm the importance of implementing the U.S.-DPRK Agreed Framework and full compliance by North Korea with its non-proliferation obligations. We therefore place great value on the continuing role of the IAEA in monitoring the freeze on North Korea's nuclear program, implementing safeguards, and helping preserve all information relating to the DPRK's past activity. We welcome the conclusion of negotiations for the EU to participate in the Korean Peninsula Energy Development Organization (KEDO) and call for further international support for KEDO, including the provision of funds. We stress the importance of Four Party talks and the necessity of North-South dialogue. We call on North Korea to halt its development, deployment and export of ballistic missiles.

79. We welcome the emerging high-level dialogue between India and Pakistan. We encourage both countries to bring their activities into conformity with international non-proliferation norms. Consistent with our support for the CTBT's early entry into force, we encourage both countries to adhere to that treaty.

80. We recognize that global security and stability are strengthened by promoting international responsibility in the transfer of arms and sensitive technologies, and to that end reaffirm our support for the Wassenaar Arrangement. We welcome the steady achievements under the UN Register of Conventional Arms in promoting transparency in armaments. We encourage the work of the UN Panel of Governmental Experts on Small Arms to identify the ways and means to prevent and reduce the excessive and destabilizing transfer of small arms and light weapons and we will continue to work together to curb illegal trafficking in firearms.

Export Control Regimes

81. We underline our support for the arrangements that make up the international export control regimes. The Zangger Committee and the Nuclear Suppliers Group, the Missile Technology Control Regime, and, for those who are members, the Australia Group export control regime, all contribute critically to the global application and enforcement of international export control norms.

Anti-personnel Landmines

82. Last year we committed ourselves to spare no effort in securing a global ban on anti-personnel landmines. To this end, we note the useful and complementary efforts in a variety of fora, including at the Conference on Disarmament and in formal negotiations to take place in Oslo in September through the Ottawa Process which has set the goal of achieving such a ban before the end of the year. We welcome the restrictions on anti-personnel landmines unilaterally declared by States, including by the members of the EU. We reaffirm the UN General Assembly resolution, approved overwhelmingly, calling for concluding an effective, legally-binding international agreement to ban anti-personnel landmines as soon as possible. All States should adhere to the strengthened Protocol on Mines, Booby Traps and Other Devices. We encourage
