## SEEKING TO SUE TORONTO PAPER

Saturday Night Not Incorporated Under Laws of Britain. Complaint Made.

LONDON, .Feb., 23 .-- (C. A. P.) .--Meredith McKim of Charing Cross was summoned here yesterday as agent for the company called Saturday Night, Limited, for not filing with the Night, Limited, for not filing with the registrar a certificate copy of a memorandum of articles of the company as required by the Companies Act. Comyns Cars, who supported the summons, said Saturday Night was a Canadian newspaper published in Toronto, and that the defendant was the London agent for the owners. The issue of Jan. 25 contained, counsel said, a gross, scandalous libel concerning A. M. De Beck, managing director of another Canadian newspaper. He consulted Lewis & Lewis with the view of taking proceedings, but it was found of taking proceedings, but it was found the company hadn't filed at Somerset House the particulars mentioned in the present summons. Letters were sent to the defendant pointing out the omission and asking for the name of the company's solicitor, but no reply was received. Defendant's counsel submitted that the defendant was not smenable to this section incorporate. amenable to this section, inasmuch as the company, altho carrying on busi-ness in England, had not an establishsell the paper and receive advertise-ments. Harper, Customs Broker, McKinnon Builds New **Blood Cells** 

> It is estimated that there are over 75,000,000.000 red blood cells in the human body. These red blood cells move in the blood currents, carrying through the arteries each its little load of oxygen, which it transports to the distant tissues, that they may be invigorated and vitalized anew. When the red blood cells shrivel and waste weakness and disease result, and it is by forming new blood cells

that Dr. Chase's Nerve Food restores strength to the weakened and worndear to you should be your care. You are especially cautioned against worry, which wears out the mind and makes it incapable of planning and of meeting emergencies.

Those born today will be naturally careless, indolent and untited. To humor or wait upon these children is to doom them to lives of want and misery. They really have more than ordinary ability and when trained to know what they can do, if they will, they will value accomplishment far more than lazy enjoyment and their success is assured.

Writes: "Dr. Chase's Nerve Food nas proven worth its weight in gold to me. I was pale and thin and nervous, and my system was run down in every way. The skin became a yellow color, and I suffered great misery from piles. By the use of Dr. Chase's Nerve Food my health has been fully restored. I have a good appetite and now feel strong and happy." Working hand in hand with Nature, Dr. Chase's Nerve Food is the surest means of building up a run-down system.

Sure to be able conclusions are becoming modified and extreme criticisms are becoming fewer year by year, and when all enquirers become diligent and candid discrepancy will practically disappear."

Prof. Jackson will lecture before the class next Sunday afternoon, on "The Virgin Birth of Christ."

As examples, John Wesley was given as the leading higher critic of his day. Altho a lifelong member of the Church of England, he reduced the 39 articles of that communion to 25. That he was not infallible was shown, however, by his letter, which is on view in the British Museum, in which he said that if the Methodists left the Church of England God would leave them.
