Real Estate and Building---News and Opportunities

WHY EDMONTON?

BECAUSE no city in Canada is growing so rapidly. In bank clearings, building operations, business activity, industrial development and municipal improvements, there has been a marvelous growth the past year. And already the indications for 1912 promise an activity in all these lines such as no city in western Canada has yet seen.
And for all this wonderful growth

There is a Reason

EDMONTON is now served by three transcontinental railways.
EDMONTON is the centre of a tributary agricultural area of proven richness greater than that of any other city in the world.
EDMONTON is the gateway to the Last Great West — the **Peace River country**, said to be the richest wheat-growing area in the world.
EDMONTON will this year be connected by rail with this great wheat country, opening to the inrush of settlers.
EDMONTON, by the close of 1912, will be served by about 500 miles of additional railway, tapping large areas at present not served by railways.
EDMONTON in the near future will be connected with the Pacific coast by three transcontinental railways—the C.P.R., the G.T.P. and the C.N.R.
REAL ESTATE INVESTMENT IN EDMONTON is now attracting the attention of shrewd men in every part of America, as well as in Great Britain. **One of the very best** of the many good propositions put on the market the past few months is located in that now much-talked-of manufacturing centre at North Edmonton, viz.:

Industrial Heights

The G.T.P. main line passes through this property, giving the finest trackage facilities for manufacturing plants. One large plant has already located on the property, and negotiations are now going on with several others looking for sites in this new centre. Lots have had a **very rapid sale** since this gilt-edged property was put on the market. By investing in two or three of these lots now you are **assured of handsome profits**, for everything about this centre is advancing steadily and rapidly.
