REV. JOHN NEILL AT EMPIRE CLUB

Moderator Presbyterian General Assembly Speaks of Visit to Front.

Rev. John Neill, moderator of the Presbyterian General Assembly, addressed the Empire Club yesterday in review of his recent trip to the front. His remarks were naturally of a personal character, but were delivered with such good humor, breadth of sympathy, urbanity and picturesqueness that there has been no more popular speaker during the season. His frequent anecdotes aroused much laughter, and he spoke with a freedom of prejudice that was highly in-

There were none so optimistic anywhere as the men he met at the front. Two years ago, they said, they were not prepared for the Germans, but today they were ready. There was much profanity and gambling, he said, but he thought his audience could understand that. He had not seen more Canada suffering from infectious disease. The men he saw with their clear eyes and clean faces he could not and did not believe had been led

EVIDENCE CONTRADICTS OBSERVATORY RECORDS

The smells case now being tried by Sir Glenholme Falconbridge, chief justice, in which the Danforth Glebe Estate is complainant against the W. Harris Glue Co.'s factory at 994 Danforth avenue, is expected to finish to-day. Among the witnesses was John Harris, the present manager, who stated that when the property was bought in 1884 it was worth about \$130,000, and today it could be appraised at \$210,000. The firm employed 87 men. Mr. Hill, a real estate agent, stated

that the property generally from l'age avenue to Riverdale Park in the Danforth district was of a high class, that east of the glue works was not as high class. East of the glue works the values ranged from \$2000 to \$6000. For Tired Feet, Sore Feet, Tender, Aching, Swollen, West of Pape avenue the values ranged from \$5000 to \$25,000. One of the witnesses who had lived in the vicinity of the factory for more than six-teen years had never been aware of the smell. Another witness had been so sensitive to the odors emanating from the factory that he had had to shut all his doors and windows dur-

ing the warm days.

W. R. Raney, counsel for the Glebe Estate, stated that several of the witnesses were out of their bearings in the matter of wind direction and had a penchant for easterly blows. Such blows naturally would not affect the Glebe Estate, but figures from the observatory had proven the alleged di-rections to be incorrect, the wind having been westerly in most cases. The factory, he said, was run con-The factory, he said, was run contrary to the hygienic laws according to the evidence of a well-known expert from New York City.

LIBRARY STATISTICS.

The statistical report of the library for the month of March shows an increased use of books despite the fact that Good Friday came earlier than usual this year. Church street library showed the largest increase, due to the fact that the branch was closed in March of last year. Riverdale and Earlscourt libraries made good show-
