### What Can You Afford?

The cail is coming—the call for Canada's 1918 Victory Loan. What are you preparing to do? Are you going to figure that you can "afford" to take only just enough bonds to "get by"? Meanwhile, will you go on spending money on luxuries, taking in this amusement and that, preferring your selfish pleasures to your country's urgent needs?

If you do these things, you won't be acting squarely with your country, with our soldiers or even with yourself. Our lade in France are giving and have given, to the Emit—life, limb, All. What you are asked to do is to save some money for yourself and Canada, while they are saving for you the right to earn money in Canada—Canada, thanks to them, untrodden by the heel of the brutal, bestial Hun.
