New Department Will Enforce Temperance Act of Manitoba

Winnipeg, Oct 19.—An announcement which forecasts a general shakeup in the province with reference to the enforcement of the Manitoba temperance act was issued today by Attorney-General Johnston. A new department will be created under the attorney-general to be known as the law enforcement department.

In the past a number of sub-departments have divided responsibilities leading to much overlapping and possibly inefficiency, tho the attorney-general states that the proposal is not to be construed as a lack of confidence in any of the present officials. Enabling legislation will be brought down next session.

NEW ZEALAND BALKS AT NAVAL PROPOSAL

Jellicoe's Ideal of a Single Navy With Empire Units is Not Acceptable.

Reuter Cable.

London, Oct. 18.—The Times correspondent at Wellington, N. Z., says that Admiral Jellico's report has been tabled in the house of representatives.

After quoting the admiralty memorandum to the conference of 1909 favoring a single navy, the report says that this ideal is not obtainable, and adds:

"Experience has shown abundantly that responsibilities in regard to naval defence are far more cheerfully recognized and shouldered if the result of the effort is apparent to those making it—in other words, if the ships provided are self-made by the people paying for them and are manned by their own kith and kin."

The general principle of the proposals is that New Zealand should co-operate in the naval defence of the empire and assist Great Britain financially by paying for, manning and maintaining a certain proportion of the far-eastern fleet and all vessels required for harbor defence of New Zealand, and also providing such portions of the personnel as practicable. The ships thus maintained would thus be in all essentials a portion of the navy under the suggested title of the New Zealand division of the Royal Navy.

The waters from the Indian Ocean to Canada are one and all parts of the empire. Those situated therein are equally interested in the security of sea communications; therefore the defence of this ought to be entrusted to one fleet composed of units from these countries.

A high flag officer stationed at Singapore should direct the fleet. For its maintenance Great Britain should contribute seventy-five per cent., Australia twenty per cent. and New Zealand five per cent. New Zealand's ships should comprise three light cruisers, six submarines and a parent ship. The annual cost of maintenance and depreciation is estimated at $4,600 pounds.

PROPOSE CONSERVING OF CANADIAN PELTS

Ottawa, Oct. 18.—The commission of conservation is calling a convention of fox breeders, and others interested in the business of fur-farming. Fox farming, altho only in its infancy, is today netting those engaged in the industry over $1,000,000 per year. The exceedingly high prices obtained at the recent fur sales have enormously stimulated the trapping of fur-bearers. These animals are undoubtedly decreasing in numbers, and the supply of fur can only be kept up by domestication, which not only ensures better pelts, but decreases the losses wild animals sustain in the wild state from predatory animals and other enemies.

FARM PRODUCE.

The feature at both the St. Lawrence and North Toronto markets Saturday was the agitation over the blackboards which had been put up, giving quotations on certain lines of produce which were stated to be "fair market prices"—as follows:

Eggs—Strictly new laid, 70c to 73c per doz.

Eggs—Farmers' fresh, 65c to 68c per doz.

Butter—Choice dairy, 58c to 62c per lb.

Potatoes—By the peck, 35c to 40c.

Potatoes—By the basket, 45c to 50c.

The World thinks that with the exception of the higher prices quoted for the potatoes, they were unfair to the venders.

New laid eggs are so scarce at the present time, they are difficult to obtain, and on enquiry for new laid eggs at one of Toronto's leading retail stores on Saturday afternoon, The World was informed they did not have any, and on asking the price of some eggs which the said store were sending out, which were not new laid, was told they were 80c per dozen. Therefore it appears that the prices quoted for strictly new laid eggs, 70c to 73c per doz., were unfair.

The opinion was freely expressed among the vendors that if the superintendent of the St. Lawrence market would weed out those vendors who have sold eggs which were not fresh, if they are not out-and-out bad, as new laid, instead of trying to force reputable vendors to sell new laid eggs at unfair prices, he would at least be only doing his duty.

The price for choice dairy butter was quoted at 56c to 63c per lb. Now the said superintendent (we are informed it was he who obtained the prices) may be able to buy choice dairy butter at those prices, but if he is, the writer would like to know where 65c per lb. was paid during the week to a grocer, for fifteen pounds of what was supposed to be choice dairy butter, but it was so far from being choice, there was some of it could not be eaten. Some of the dairy butter brought on the market is inferior, but there are some vendors who, make butter of such quality it is inferior to none, and we also know that those vendors cannot make enough butter to supply their customers, who literally beg for it at 70c per lb., so is it "fair" that they should be asked to take less?

No complaint was heard as to the prices quoted on potatoes.

Eggs—New laid eggs were very scarce, and sold at 70c to 80c per dozen.

Butter brought from 63c to 70c per lb.

Poultry—Chickens sold at 35c to 40c per lb.; ducks at 35c to 40c per lb.; geese at 32c to 35c per lb.; fowl at 30c to 32c per lb., and turkey 55c per lb.; dive chickens at 30c to 35c per lb., and live hens at 25c to 30c per lb.

Vegetables were plentiful, and sold at practically unchanged prices.

Fruits—Apples and pears were the principal offerings, selling at about stationary prices. Tomatoes advanced, choice quality Carter's Early Sunrise bringing 75c to $1 per 6-qt. leno baskets.

GENERAL CONFERENCE OVER COAL SITUATION

Washington, Oct. 18.—Telegrams were sent today by John L. Lewis, acting president of the United Mine Workers of America, to the thirty-two members of the full-scale committee to be here Tuesday morning for a conference with a similar committee of the operators and Secretary of Labor Wilson, in an effort to avert the strike of half a million bituminous miners, called for Nov. 1. The meeting will not be open to the public. Decision to conduct negotiations behind closed doors was announced by Secretary Wilson, who is acting by direction of the president's cabinet as an unofficial member. Thomas Brewster, head of the coal operators' association, who conferred yesterday with Secretary Wilson and Lewis, has instructed his committee to be on hand Tuesday. There was no assurances from either side, however, that the meeting might result in averting the strike.
