London, Oct. 28 .- The war situation this morning presents no new features. It is presumed in Natal that the Boers are reconstructing their plans, and that the English are resting. But telegrams from Ladysmith at express rates still occupy 48 hours in transmission to London, and, therefore, it is not impossible that some-

The special despatches assert that Col. Mafeking, is aware that Pretoria has given Gen. Cronje orders to stay his hand, as already there is quite enough to employ the Boers in Natal. The Government has chartered the City of Rome as a hospital ship. Joubert, advanced within 6000 yards of Glencoe Camp and then retired. The Boer losses were very heavy-quite

What Mr. Foster Says.

Hon. G. E. Foster, when here yesterday, said he did not think there was much likelihood of a general election before the close of the year, and perhaps not until after another session of Parliament, but that the Government will go to the country immediately after the session. Mr. Fostersays Sir Charles Tupper is a remarkable man for his age and the Opposition is in stronger and better shape than for years past.

stronger and better shape than for years past.

Regarding the Transvaal contingent, Mr. Foster says Sir Wilfrid Laurier, by his hesitancy, missed a chance of a lifetime, that Mr. Bourassa's resignation was merely a feint to make the sending of the contingent a critical question, and thus provide a gauge for the Government. He said Mr. Tarte should be the next to resign, as he does not see how he can "hold his place as a Minister of the Crown after such an exhibition of treason."

The ex-Minister of Finance does not think Mr. Hardy dropping out will strengthen the Ontario Government. The consequences of the electoral corruption cannot be escaped, and the people will probably be ready for a change.

Mr. Foster also says a strong effort will be made again next session to have a royal commission appointed to investigate the Yukon charges, but it is almost hopeless.
