The Borden Government has done brilliant service for the kaiser for three years, with its broken down horses, rotten binoculars, Ross rifles, paper soled boots, with its Allisons, stenographers, Joseph Flavelles, with its high-priced bacon, and its silly food controllers' fads. If the record of the Borden Government will not give joy to the kaiser, nothing this side of heaven will.

Compared with it the Spanish bull fight is a with it the Spanish bull fight is a with it the Spanish bull fight is a verification. It is a should have some strength, and is not absolutely defenceless. But to blaze away with double-barrelled shotguns at helpless pigeons just set free from traps seems to me the height of brutality. Is there no bylaw of the municipality to stop this thing? I understand that St. Thomas would have none of it. There is not the slightest doubt that all the better citizens look upon it with feelings of utter disgust and would be delighted if some way could be found to stop it.
