

WARRIOR WAR BONDS ADVANCE SHARPLY

Wall Street Calmly Receives News of American Belligerent Policy.

New York, April 3.—Operations on the exchange today depicted the mixed nature and bewilderment of professional investors arising from overnight developments. The president's message to Congress, and an irregular demonstration of strength at the opening, important factors, however, failing to respond in the market.

Straws and the Wind

NEWRAY owns 321 acres in the Hollinger-McIntyre-Newray area in Porcupine—one of the largest holdings in the richest producing section of the camp.

NEWRAY is directly in the line of strike of the Hollinger-McIntyre veins, and has proven the existence of extensive ore bodies at depth.

NEWRAY is driving a crosscut to intersect these on the 400-foot level, where the gold-bearing area is now being entered.

NEWRAY is proving up the western portion of its property by diamond drilling, which promises spectacular results.

PORCUPINE STOCKS
