

The Sunday School Era.

AN INTERDENOMINATIONAL SUNDAY SCHOOL JOURNAL

SUBSCRIPTION PRICE: 50c. PER ANNUM, WITH VERY LIBERAL CLUB RATES

FOR some time there has been felt among Canadian Sunday School workers the need of a competent journal that would keep in touch with the progress of the movement in our own land, serve as a medium of communication between the various Provincial Associations and the workers in the various denominations, and furnish such practical help as may be required in the prosecution of the work. To meet this want THE SUNDAY SCHOOL ERA has come into existence.

Entering the field as a Dominion Sunday School journal, THE SUNDAY SCHOOL ERA will seek to keep informed as to the progress of the work in each of the provinces. No effort will be spared in making the paper up-to-date, practical, and bright in every department. The editors and publishers, as practical Sunday School workers, will give their best thought to furnishing a paper which will prove a necessity to every wide-awake Sunday school worker.

The notes on the International Lessons will be found suggestive rather than exhaustive, yet sufficient space will be given to make this department of special value. Those who wish to get in concise form help for the study of the lesson will find these notes invaluable. The blackboard illustrations will be found suggestive, and such as can be reproduced by anyone. The Primary Department, under the skilful care of Miss Jessie Munro, will keep workers amongst "the little ones" well posted as to modern methods and ideas.

Believing that one of the best ways of helping the workers is by furnishing them with fresh methods and practical suggestions, special attention will be given to this department in the ERA. Under the direction of the live superintendent of one of our large city Sunday Schools, this department will be found, month by month, full of hints for the successful prosecution of Sunday School work.

Among our contributors will be found prominent educators and well-known leaders in Sunday School work. Illustrated articles of special interest will be found in every issue, while interviews and descriptive articles will be made a regular feature. Excellent paper will be used, and the mechanical workmanship will be of the very best.
