tives" Cured Me Newbury, Ont., May 29th, 1913.

"I am not a strenuous user of medicines or patent medicines, but I have taken nearly everything recommended for Indigestion and Constipation.

I have been so bad with Acute Indigestion that I was nearly in convulsions and had to be held. I have used "Fruitatives" and I have not had another attack nor suffered at all with Indigestion since taking them.

"Fruit-a-tives" is the only remedy I ever used that did me any good, and I am grateful to "Fruitatives" for making me as well as I am today, and everyone agrees that I look in first-class health.

My husband likes "Fruit-a-tives" very much and takes them whenever he has occasion to use a remedy for Constipation."

Sunken dredge Leconfield with another boat in the spring.

Mr. Griffiths said that he had no intention of resigning his seat in the British house of commons, but that he would not contest another election in the event of the prorogation of the house, or at the regular elections in 1915.

Four more dredges will be brought to St. John, Mr. Griffiths said, and it is possible that another may be constructed at Courtenay Bay. A big elevator dredge of the Fielding type is to be brought across the Atlantic this spring. All the new equipment is expected here early in April.

John F. Stevens, formerly head of the excavation work on the Panama Canal, arrived in the city yesterday and, it is understood, will superintend the dredging operations at Courtenay Bay. Mr. Stevens has had a wide experience in engineering work on a large scale.
