Ladies' shirt waist in plain linen trimmed with tailored box pleats, buttons and a satin four-in-hand tie.

No matter how fashionable the fancy blouse may be, the tailored waist will always be in demand. It meets a constant demand for smartness and simplicity in an every day waist.

Linen is the most practical material for the tailored shirt waist. For a woman of average size 3 1/2 yards of 18-inch linen are required for this model. Some parts of the waist may be cut on open material and the others on a fold. The first step in making is to form a box-pleat in front, back and pocket, bringing together and stitching lap with a satin four-in-hand.

WHERE THE HEATHER BLOOMS IN CANADA

Novel Means of Advertising The Dominion's National Park.

The visit of Sir Arthur Conan Doyle to Jasper Park has served to draw the attention of the traveling public of Great Britain to the magnificent assets Canada possesses in her great national reserves. J. B. Harkin, commissioner of dominion parks, is also carrying on a campaign to make these immense playgrounds better known and has just issued from the department of the interior a most attractive souvenir of the mountain parks. This is a booklet entitled "Just A Sprig of Mountain Heather." Attached to its cover is a piece of real purple heather taken from the alpine meadows of the Canadian Rockies.

It is a novel and very effective way to capture the tourist's interest in Canada's national parks. Mr. Harkin treats of the significance of these reserves and of the dominion's natural heritage of beauty in the form of majestic mountains, peaceful valleys and emerald lakes. Jasper is the latest of the dominion parks to be established. It comprises an area of 1,000 square miles in the wonderful district recently opened up by the construction of the Grand Trunk Pacific through the Yellowhead Pass.

HER LITTLE JOKE MAY COST HER MILLIONS

London, Eng., July 27.—Just because Mrs. Waldorf Astor, Jr., made a jocular remark concerning the tightened strings of her father-in-law's money bags, the elder Astor, who is an expatriated American seeking a dukedom, threatens to disinherit her husband, Mrs. Astor was one of the four beautiful Langhorns made famous by the Charles Dana Gibson drawings.

The Governor Says--

"Cut out tea and coffee, my boy. They contain an irritant—caffeine—and you can't have a fluttery heart or sour stomach or a grouchy headache and do big business."

It's a mighty good plan, if tea or coffee puts you "off color," to quit it, and for a delicious table beverage, use

POSTUM

the pure cereal food-drink. There is no caffeine nor other harmful substance in Postum. In either form—Regular Postum, which must be boiled, (15c and 25c) or Instant Postum, made instantly in the cup with hot water (30c and 50c tins)—

Postum is good in any business.

Daily Hints For the Cook

Liberty Cake

Beat yolks of 2 eggs, add 1 cup sugar, beat the white very stiff, add them, beat again, add 1/2 cup of milk (sweet), 3 tablespoons of melted butter, 1 teaspoon vanilla, Stir well, add 1 cup of flour measured before sifting, sift with this 1 rounded teaspoon of baking powder and 1 rounded teaspoon of corn starch, salt. Beat well. Bake in shallow pan.

Nut Custard

Poach the beaten whites of 4 eggs by spoonfuls in 3 cups of scalding milk, drain thoroughly and return the milk which drips off to the double boiler. Beat the yolks of the eggs until light, add half a cup of sugar and half a saltspoon of salt, pour in the hot milk slowly then stir and cook until thick. Remove from the fire, add 1/2 of a cup of chopped nut meats, flavor with almond or vanilla, turn into a glass dish and cover with the poached whites.

KITCHEN WRINKLES

(London Tit-Bits)

Vinegar placed in a bottle of dried-up glue will moisten and make it liquid again.

A teaspoonful of grated horse-radish will keep a can of milk fresh for a day or even in the hottest weather.

When boiling a ham, leave it in the water in which it has been boiled until it is quite cold. This will make it juicy and tender.

Hard-boiled eggs should be plunged into cold water as soon as they are removed from the saucepan. This prevents a dark ring from appearing round the yolk.

To revive withered flowers plunge the stalks in boiling water and leave them in it till it becomes cold. Then cut about one inch from the ends of the stalks.

If you wish to prevent green vegetables from boiling over, drop a piece of dripping the size of a walnut into the centre of them, just as they commence to boil.

When making a steamed pudding put a piece of well-greased paper over the top before trying on the cloth. This will prevent the pudding from becoming greasy, and they are no trouble to wash.

If you are bothered with flies during the warm weather, try keeping a pot of mignonette growing on your window-sill. Flies detest the smell of it, and you will find the pests will not trouble you as long as the mignonette is there.

Get some bitter apple from the chemist, crush it and sprinkle it amongst the

clothes. You will find it the finest thing on record for keeping moths away from everything, and one can use garments at a minute's notice, as there is no smell left by bitter apple.

The odor of printer's ink and cedar is not at all agreeable to moths. An ordinary trunk lined with clean newspapers, under which several small pieces of wood from cigar-boxes have been laid makes almost as safe a storage place for clothing as an expensive cedar chest.

Mildew stains are sometimes a source of great trouble, and are difficult to remove unless you know just the right way. Rub a little soap over the mildew

spots, and on top of this a little chalk and lemon juice. If the garment is then put out in the sun for a few hours and afterwards washed in the usual way, the spots will disappear.

Tomato is said to be successful in many cases of removing inkstains from white materials, such as handkerchiefs, muslin frills, etc. It must, however, be done as soon as possible after the mishap has occurred. A clean piece of blotting paper should be laid under the stain, and a slice of raw, ripe tomato rubbed over the surface, fresh pieces of blotting paper being substituted until the ink spot has vanished.
