Taken as a whole, the stock market yesterday showed a disappointing result of the city bond sale, and the bears showed more confidence in their position. Quite a large amount of bonds, say \$1,500,000, were sold below the bid price and it is claimed that one of the successful bidders sold his out at a loss.

Rock Island and San Francisco stocks, in prices, have been adjusted in the present market and the question is what is the next stock or stocks to do likewise.

Most of the men employed in the woodworking factories about the city, who went on strike on May 1 have returned to their former positions or have taken other employment. The strike in so far as the woodworkers are concerned is about at an end. In most cases the men were taken back at increased wages, but some of them were turned down and not given the chance to come back.

SHOT HIS RIVAL, CUT HIS LEG OFF AND CUT HIM OUT

Madrid, May 22.—Gomes Lopes del Navarrete, a well-known diplomat of Barcelona, was in love with an actress, Dolores Riverode Romanones, who is the daughter of an aristocratic Spanish family, whose name she brought into great notoriety by going on the stage.

A young but already famous surgeon, Dr. Dorado del Pozo, was also a suitor for Dolores, and her affections wavered so uncertainly as to cause a duel between the young men, in which the diplomat was wounded in the leg.

Immediately Dolores was at his side and nursed him devotedly. Several doctors were consulted, but the leg only became worse. At last Dolores persuaded her lover to consult his rival, the brilliant young surgeon. He did so and Dr. Dorado del Pozo said that amputation would alone save his life, as gangrene had set in.

More persuasion by the actress, who assured him that her affections were now fixed, was needed before the young diplomat would consent to the operation. The operation was eventually performed and Senor Navarrete provided with an artificial leg.

In spite of her previous protestations Dolores had now to confess that she could never marry a man with one leg. Not long after she married the young surgeon. This aroused Navarrete's suspicions and he visited the doctors whom he had consulted before the operation. They all assured him that gangrene was, in their opinion, quite impossible. He is now bringing an action for damages against his successful rival.

## FIRST GAME TODAY; IF WEATHER PERMITS

The weather man was not particularly generous in the class of weather he handed out for the opening game of the New Brunswick and Maine League in the city. However interest is running high and it is expected that a large crowd will turn out this afternoon to see the first game if the weather makes playing possible. On account of the threatening clouds, the management have decided to dispense with the band for this afternoon's game but will have a band in attendance at Saturday's contest. The line-up will be practically the same today as played in Calais yesterday with the exception that Shanley will be on the mound for the Marathons and it is hoped that the local boys will have better success this afternoon than they had yesterday. It is expected that there will be some change in the batting order.

## ENTERTAINMENT FOR CRICKETERS

Edmonton, Alta., May 22.—Fifteen hundred dollars has been guaranteed by the Edmonton Cricket League for the entertainment of the touring Australian cricketers, who will play at Diamond park here, June 3 and 4. Victor Trumper, one of the greatest cricketers the world has ever seen, probably will captain the visiting team. Edmonton is the only city in Alberta to be visited by the Australians, who will go from here to Prince Albert, where they will make their sole appearance in the province of Saskatchewan. The first match in Canada will be played in Victoria on May 28.

The visitors will be entertained at a public reception and banquet the evening of June 3, when Mayor William Short, the members of his cabinet, officers of the legislature and presidents of the various amateur athletic organizations will be there to greet them. The address of welcome will be given by Mayor Short. Invitations will also be sent to prominent cricketers throughout the western provinces.

Arrangements have been completed to give the "Corralles" a genuine western welcome," said M. R. Gamble, secretary of the league, "and we are looking forward to their visit with pleasure. We feel, too, that the coming of the Australians will stimulate the game in this part of the country. There are more than 300 active cricketers in Edmonton and as many more in other parts of the district and we are looking for good results."

The members of the Boston Opera Company were accorded another enthusiastic reception last night when they presented their second concert in the Opera House. The audience was only fair sized but keen appreciation was displayed and the many selections were encored time and again. The sextette from Lucia di Lammermoor was repeated in the concert last night with great success. The Ave Maria, with yello obligato by M. White, sung by Madame Stoeny was greatly appreciated. Mile. Gauthier's French songs were no less delightful. M. Gatti was in better voice last night and every member of the company repeated the success they had scored on the previous evening. ## RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until "Fruit-a-lives" Cured Him

McMILLAN'S CORNER, ONT., Sept. 30th, 1910.

"Your remedy, 'Fruit-a-lives' is a perfect panacea for Rheumatism. For years I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-lives' and they cured me.

Since then, I take 'Fruit-a-lives' occasionally, and keep free of pain. I am satisfied 'Fruit-a-lives' cured me of Rheumatism and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it."

JOHN B. McDONALD.
