

1,500,000 ITALIANS TO MOVE TO MEXICO

A Huge Colonization Scheme
Backed by Subsidiary Morgan Interests.

Vancouver, Sept. 8.—The Magdalena Bay Improvement Company, backed by subsidiary Morgan interests to the extent of many millions of dollars, has, after twenty years' labor, finally secured control of 5,000,000 acres in Lower California, embracing a stretch of Mexican territory 300 miles long by eighteen miles wide. L. A. Walker, for many years superintendent of a Vancouver milling and grain company, has been appointed assistant general sales manager of the concern.

Arrangements have already been made by the Italian government for the migration of 1,500,000 Italians to the new colony, where they will engage chiefly in agriculture. Wild cotton and various native plants with large industrial values abound in the district, and here are at least 3,500,000 acres of rich agricultural land, which may be converted into extremely valuable property at a reasonable cost. The climate varies

from sixty-five in summer to eighty-eight in winter, and at no place is the land more than eighteen miles from tide-water, which makes shipping facilities unusually good. Because of the natural slope of the territory, gravity can be used to a large extent in transporting produce.

The scent of the undertaking is 680 miles south of San Diego, Cal., and included among the backers are E. D. Morgan, Rowland of New York, a relative of J. Pierpont Morgan, J. McCall of Los Angeles, Welford Boston, formerly a well-known Pacific coast publisher, and J. E. and A. C. Blackman, financiers, the Blackmans having secured the concessions from the Mexican government, after infinite difficulties.

Excels All For Purity, Flavour and Aroma "SALADA" TEA

If you have not tried it, send us a post card for a free sample, stating the price you now pay and if you use Black, Green or Mixed Tea. Address Salada, Montreal.

Amos does not figure in the incident at all.

**CHICAGO SURFACE LINES
EARNING RECORD PROFITS**
Chicago, Sept. 8.—Profits of the Chicago surface lines have averaged more than a million dollars a month this year, the total for the first seven months being \$8,512,515. This profit is the largest ever earned, according to reports filed with the Illinois Commerce Commission. Reduced operating expenses were declared responsible for the showing, a small number of passengers being transported than last year.

POLICE INVESTIGATION.

An investigation was opened last evening in the county secretary's office by the Lancaster board of control to inquire into the charges made by the New Brunswick Power Company against Police Constables Stinson and Tower on the evening of August 24. The two policemen were present, and also J. A. Barry, representing C. H. Belyea, John Joseph O'Brien, who is leaving St. John on Saturday, was the only witness. Mr. O'Brien told of arriving at the scene of the occurrence, finding a wrecked car and a large crowd standing around it. He said he saw the street car hit Mr. Belyea's automobile, which was standing on the left side of the road. He said that when he was talking to Police Constable Stinson and Amos, Mr. O'Brien said that there was no disorder on the part of the crowd as far as he could see. He said that the policemen were trying to move the crowd away and maintain order. No damage was done to the car by the crowd, the witness said. This concluded Mr. O'Brien's evidence, and adjournment was made.

Through an error it was reported yesterday that the complaint was against Policemen Stinson and Amos. Mr.

AUTO OF COUPLE ON HONEYMOON BURNED

Attleboro, Sept. 8.—A large touring car containing a Boston couple, who told firemen they were on their honeymoon, was destroyed by fire on the Washington street turnpike.

The young man tried to sound the fire alarm, but the key broke in the box and a telephone message was sent to the fire station from the residence of Raymond Avery.

Occupants of the machine told Lieut. Arthur Shaw of the Fire Department, that they were just married and that the bride's wedding trousseau and \$120 in paper money were burned with the machine. They left for Boston in a passing machine without giving their names.

The machine was a limousine, with Massachusetts registration 109,406, but this number in the official registry calls for a different make of car and is listed to a Dorchester man. The police are conducting an investigation.

BIPLANE FOR KING ALFONSO'S USE GAUGED FOR 130 MILES AN HOUR

Paris, Sept. 8.—A Potez biplane, designed and built especially for King Alfonso of Spain, left Villacoublay on Monday.

The builders expect the airplane to average 110 kilometers an hour. It bears the Spanish royal arms and is destined for the exclusive use of Alfonso.

Antique Statue Found.

Rome, Aug. 22.—(By mail).—A very important archaeological discovery has been made at Pozzuoli, near Naples, where a very fine statue of Graeco-Roman art, representing a woman holding in her left hand a little basket of fruit, was accidentally found by some workmen attending to drainage. The statue, which is in good condition, has been put in the Museum of Ancient Art at Pozzuoli.
