(Special to the Times.) Tacoma, July 4.—The most appalling accident ever known in the history of Tacoma occurred this morning when the 8:30 Edison car, loaded with excursionists coming to see the parade, was dashed down sixty feet over the bridge at the gulch where the track runs from Delin street, burying the passengers, among whom were many women and children, under the wrecked car.

Whirled Completely Over, pitched from the bridge, striking on its top, the heavy trucks and the body of the car crashing the frail upper works to splinters, smashing down upon the mass of men, women and children with which the car was loaded.

The McInnes Letters

The Ex-Licent-Governor Applied to the Secretary of State For Advice.

Question of Dissolution Before the House Assembled Was Under Consideration.

(Special to the Times.) Ottawa, July 5.—The correspondence which passed between McInnes and Scott may be said to have commenced with the following telegram from the ex-Licent-Governor:

Victoria, Oct. 21st, 1898. From Licent-Governor to Hon. R. W. Scott:

Can I constitutionally grant a request for dissolution before the new legislature has formally convened? Please wire reply.

Scott replied as follows: While technically you might have the right to grant dissolution on the advice of your ministers, yet the exercise of that power under existing circumstances would be regarded as an extraordinary precedent, and I would advise against its exercise.

(Signed) R. W. S.

Following, this is a batch of letters and telegrams, which ends with McInnes's dismissal. It will be seen from the nature of the above and also from what follows that the truth of what was stated in this correspondence yesterday, that had McInnes taken the advice of his old colleague in the Senate and personal friend, he would still be the occupant of Government House.

It's Time Wasted

And strength wasted, to try to push back the rising tide with a broom. It's just as great a waste of time and a far more serious waste of strength to try to push back the rising tide of disease with the "nervines," "compounds" and "nerve foods" which simply drag the nerves into a drunken stupor.

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N.C. It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that a BITTY OF Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required.

At least this has been our experience during the past twenty years. For sale by Henderson Bros., Wholesale Agents, Victoria and Vancouver.

Webster, who is also a special constable, arrested Jonah the second day after the robbery, and claimed to have found a portion of the gold in his pocket.

This, with the gold found yesterday by Detective McKenzie, of the C. P. R. service, and Webster near the Spania's Bridge station, makes up the full amount stolen.

Webster comes up for examination to-day.

The Commons to-day is discussing emergency resolutions on the motion of N. A. Belcourt to receive the report of the committee. F. D. Monk moved in amendment a minority report.

In the committee on the Chinese Immigration Bill, Hon. R. W. Scott moved to amend the clause by which a Chinese married to a white man is admitted free of tax by adding "and the children of such wife by such husband." This was adopted and the bill reported and amendments concurred in.
