M. Pasteur has resolved to extend exercise and plenty of sleep. his studies in vaccination to yellow fever, with a view of determining whether or not the disease is due to parasites and can be granded against by inoculation. Great as the results of Pasteur's labors thus far have been, he seems to be as yet merely standing upon the threshed of useful discovery.

Recent investigations show that the false membrane of diphtheria is built up by a parasitical plant, which lastens itself to the throat and grows and multiplies upon its inflamed surroundings. The spread of these plants to the blood, either poisoning it themselves or conveying poison to it, produces the diphtheria. The possibility that diphtheria may be prevented by artificial vaccina-

Although considered mute, insects apt to say that he is tired. If it is mamhave the pewer of producing sounds by
ma who is irritable and peevish; it is inticertain movements which to some extent are characteristic of the different species. The shrill chirp of the cricket is produced by the rubbing together of "Neural' on the top of her head!" the wing-cases. The harsh shriek of When Aunt Kitty or Sister So

without the aid of iron tools; but archaeologists have in recent years succeeded in reproducing such sculptures in granite with the use of stone implements only. An example of the extent to which granite may be modelled with Mexico. It is recorded of this stone by Gama that ten thousand Indians were ness, and of daily cheer, to think how

The reason is this The health theories of the average Christian dan and domain to egregious ly wrong, so that only the opposition of The Paris Electrical Exhibition con- against their conscience, as it were—to maintain the struggle for a tolerable tains an extremely ingenious instrument maintain the struggle for a tolerable in the trap in apparatus by which existence with anything like success, while the helpless infant has to conform cally signalled on one telegraph wire by to these theories—with the above re a single movement of the operator, the sults." Dr. Oswald's remedies for this figures appearing at the distant end at state of affairs are those of all the hy-

gienic writers of the day viz.: better food and less of it, pure air, proper Family Courtesy.

One of the most malignant of the family foxes is discourtesy, and he creeps into it possible for him to find even momentary hospitality. People who are ordinarily polite, well-bred and genial, are some times guilty of rudeness in manner and speech and action at home, of which they would be ashamed in society. Parents are hasty and fretful in the way of addressing or repreving children, and children forget the respect and honor due to parents. A A great deal of unhappiness overclouds omes, which might be bright as the morning, but for this wretched habit of brus queness and incivility, which fastens on some unfortunate victims like second nature. It has its different phases, to be sure. When pape indulges in it, the family are

the grass-hopper is caused by friction | short and snappish, it is excused because of the legs against the wings. The shrilf transfer sound for the house of the months and it is only little Floy or small Tom who and the busy hum of bees and flies result from the rapid motion of the and frowning blackly. A little leaven leaveneth the whole family lump, and it is wings while flying.

It has often been doubted that the ancient sculpturings found in different ancient sculpturings found in different woman to me the other day, and she woman to me the other day, and she without the aid of iron tools; but was right. Persons who are invariably tools of stone is found in the great | we are thinking of has intruded into our settle ptured stone of Montezuma, in vineyard, and begun his work of spoiling employed in transporting it to the City best to banish him. An Automatic Reed Organ.

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the abinet Organ, but the organ must be n anipulated by an artist in order to produce music; the UNCLESTE is on the other hand entirely mechanical in its action, and at trifling expense it can be made of furnish a nunlimited supply of all kinos of music."—Torono Globe.

"THE ORGUINETTE is indeed a musical wonder. It is a miniature reed organ, with as strong and melodious a tone as the Cabinet Size. It surpasses the Cabinet Organ, for the reason that the moramus in music can play it as well as the most accomplished professor. The Orguinette is rong and accurate in its mechanism, and consequently not liable to get out of order."—Montreal cartie. Gazette.

"THE ORGUINETTE is the most perfect automatic musical instrument yet invented, its repertoire is unlimited, the tone is remarkably good."—Montreal Star.
