You refer to my temporary departure on a few months' variation. I propose going to the Bermuda Islands whose climate is said to be most favorable. It cannot, of course, excel in that respect our own beautiful Province; nevertheless a change of lavitude may beneficially affect the health.

For that special location I am indebted to Ris Grace the Archbishop of Halifax, with the recommendation and permission of His Lordship the Bishop of Chatham.

Read a report of labors at Kouchibouguac by Mr. W. J. Fowler. The Presbytery deeply sympathise with Mr. Fowler in his prolonged illness, regret the consequent interruptions of his labor, and hope his health will soon be completely restored. His report was received and anneroyed and, in view of the material ago. Caswell came to work on the farm pletely restored. His report was received and approved and, in view of the material weakening of the field by the removal of an important industry, and the consequent emigration of a number of families, the Presbytery agreed to supply the field during the summer by a Catechist. Your generous action in nowise surprises me; for during a period extending over eighteen years, I have frequently experienced your practical sympathy.
You I ever regarded not as strangers from whom one should keep aloof; and I am happy to think that such feelings, have been reciprocated by you. Eighteen years cover quite a span in man's individual life. The young children of eighteen summers ago are now grown up, commence to interest themselves in the affairs of the country, and, no doubt, feel quite competent to fill the highest civil positions.

A serviceable ABOUT table carriage is a good thing to CARRIAGES, own and it ought not to cost much after its first cost if fairly used. But we have known a man to buy a carriage from us and break it all up before reaching home. The carriage was not to blame though; rum was. We warrant the carriages we sell for one year against fair usage but not against rum. That knocks our

warranty out and we are sorry to say it usually knocks the There is a little history attached to the factory where our carriages are made which may interest you.

The Gananoque Carriage factory was started by some Ontario men. They did not have much experience when they began though they had not of money. One was a grain buyer and another a merchant and another a member of parliament and so on. In a year or two they had less money but more experience and then being sensible men they began to look about for other men who had both money and experience to join them else they would not have had anything but experience left.

Just about that time, some makers of carriages from Ohio were at Ottawa trying to get the government to lower the barriers which prevented them from driving their vehicles over into our markets. But the government said NO.

If you want our markets bring your men and your nachinery and your money into our country and make here

the carriages you want to sell to our people. Then the Ohio men sought the Ontario men and they all combined. The Ohio men had practical experience in making fine carriages and the Ontario men had a good general knowledge of our country and what its people wanted their vehicles to be like.

The combination war a good one and has prospered. Gananoque carriages were sold last year by the thousand in every province in Canada from the shores of one great ocean to that of the other and all along the ways between. We sold over five hundred ourselves last year and expect to sell as many this year.

We will have a grand display of the Gananoque Carriages at Newcastle and samples in the hands of local agents Call and look them over critically. They will stand the closest inspection.
