HAD A TOUGH TIME AMONG ICE FLOES

Str. Admiral Borenson Was in Imminent Danger

Crew Momentarily Expected the Finish and Had Very Little Sleep—Reached Port in Safety.

HALIFAX, N. B., June 2.—Captain Winnies, of the steamer Admiral Borenson, which has arrived at North Sydney from Newfoundland, relates a story of hardship and danger while his ship was imprisoned in ice-fields on the Newfoundland coast which was the worst ever experienced in his career of seafaring life.

The steamer left Cardiff, Wales, on May 11, chartered by the Nova Scotia Steel and Coal Company to load iron ore at Wabana for Rotterdam. When nearing the Newfoundland coast and almost within sight of her destination, the Admiral Borenson encountered immense ice-fields.

The wind veered some and the steamer was carried further along the coast towards Ferryland. The gale subsided and next day another attempt was made to get the imprisoned steamer out of the ice-fields.

White off this point another easterly gale sprang up and the ship was again placed in a perilous position on account of her close proximity to the rockbound coast.

The schooner Carlin was in the harbor nearby, and Captain Ernest Young, who saw the dangerous position of the steamer, made his way out and offered Captain Winnies to pilot his ship out of the dangerous location.

HAVING A LAST LOOK AT THE LOST HOLBEIN

Britishers See the Famous Painting Which is Shortly to Come to America

LONDON, June 2.—Crowds of curious people stand daily before the Holbein portrait of Christina, Duchess of Milan, in the national gallery, wondering how soon it will go to America, which is now regarded as its ultimate destination. The period of option for its purchase by the nation expired yesterday, but the promised subscriptions are nowhere near the purchase price, which is fixed at \$350,000, and it was expected that Colnaght and Company, who paid \$205,000 to the Duke of Norfolk for the famous painting, would remove it when the gallery closed to-night. However it is still hanging in its accustomed place and Sir Charles Holroyd, director of the gallery, although he confessed he had no information on the subject, seemed hopeful that another period of delay would be granted.
