Physical conditions normal, but people panic stricken. condition was increased by yesterday's and then sink it. eruption, which was quite severe, but Utter and unreasoning fear possess did not materially add to the desola- all kinds. Even Fort De France is begovernment and people most grateful. Dixle now discharging part of cargo; will proceed with what remains to St. Vincent."

THE CONDITION AT KINGSTON. LONDON, May 22 .- The correspondent of the Daily Mail at Kingston, Island of St. Vincent, describes in a despatch the conditions on that island.

He says that 60 per cent of the persons injured cannot recover. The whole island resembles a Sahara, and the graves of humans and the remains of animals are seen on every side Owing to the difficulty of breathing the correspondent could not get near La Soufriere. Everywhere on the ishand the rivers have been stopped by the dust or lava, and in one village

a blast of heated sulphurous air. The or in kind. Canada also will supply authorities have ascertained, continues the correspondent, that the rumor that another crater had been formed by the eruption of last Monday is untrue.

The sun was obscured all day Monday and the temperature rose to 103 degrees Fahrenheit in the shade. A heavy dust fell that day and terrified the crowds of islanders who were those will not be allowed to stand in were tions will not be allowed to stand in the crowds of islanders who were praying along the seashore. It seemed, says the correspondent, that the dense air is probably caused by the volcanic dust from the eruption of the ports where it will be taken abour of ships and conveyed to St. Vincent.

ation has relieved the anxiety. FORT DE FRANCE, Island of Mar tinique, Wednesday, May 21, 4 p. m.— Streams of frigtened refug-ees have been pouring into Fort De streams of frigtened refugees have been pouring into Fort De
France from all the surrounding country. These people are not destitute,
but they are terrified. They want only
one thing, and that is to be taken far
away from this island, with which,
they say, the Gods are angry and which
they will destroy by fire before it sinks
under the sea.

Sunday being blown back on the is-

the trade winds. This explan-

begging to be carried away. The weather is now calm and beautiful, but the mountain is veiled in volcanic clouds, which often assume a very threatening aspect, and occasional rumblings are heard. Some heavy and very welcome rain fell this morning.

The United States steamer Dixle, Captain Perry, from New York, arrived today after a quick and safe passage. Her passengers include many world-famed scientists. Professor Robert T. Hill, government geologist; Prof. E. Borchgeyink, the Antarctic explorer; Messrs. Curtis and George Kennan and many magazine writers and correspondents are also among those who are on the steamer. The Dixle began landing her enormous cargo of supplies early and the storehouses on shore soon became congested. This is the greatest difficulty of the adminis

This morning the United States steamer Potomac went to inspect St. Pierre. With the greatest difficulty the Pierre. With the greatest difficulty the party succeeded in making a landing. The effects of the outburst of yesterday were tremendous. The huge basalt towers of the cathedral were pulverized and the walls were hurled flat to the earth. The bombardment of volcanic stones is not sufficient to account for this and all evidences point to the passage of a turious blast of blazing gas, travelling at ehormous to the passage of a furious blast of blazing gas, travelling at enormous speed and with incalculable force. The deposit of boulders, ashes and angular stones is enormous. Not a living human being saw what happened at St. Pierre yesterday. This second eruption was many times more violent than that which effaced St. Pierre and swept its people from the earth. Nor has all volcanic activity ceased. Vast columns of smoke and gas still pour from the of smoke and gas still pour from the WASHINGTON, May 21.—Adjt. Generators. New fissures have opened and are vomiting yellow whirlwinds,

From a sombre, silent city of death and desolation, St. Pierre has become a hideous amphitheatre of fiery, roarstimate of loss of life in the zone of ing destruction. The people are construction. Physical conditions nor-vinced that God is angry with the island and means to scourge it with fire

tion. Supplies of all kinds are sufficient for eight weeks. What has been the relief ships, however, is helpful to done was just what emergency demanded, and nothing further can be proach close to St. Pierre. The Dixie proach close to St. Pierre. The Dixie will sail for St. Vincent, but the other vessels will remain here. The scientists who have arrived will examine into the question of the danger of the peaks of Carbet, near Fort De France becom-ing active volcanoes. The outburst of yesterday means probably a ruined is-

leave," is the single and unanimous cry of all, rich and poor alike.

Saturday.

-Field Sports for Coronation Day -Improving Several Town

NEW YORK, May 22.—The West Indianewspapers containing accounts of the vecanic outbreak began to reach New You today. The following are extracts from t Voice of St. Lucia, printed at Castries, St. Lucia, May 8:

"The Montages Peles in the last days." s being neatly painted.

Willie Ham is receiving a cordial

ar and
The was an exedus from all the district.
The town of St. Pierre was, on the morning of last Saturday, covered with a layer of ashes about one-quarter of an inch thick and apeared as though enveloped in a fog.

"The mountain was invisible, being wrapped in the smoke which issued from it. The greatest anxiety prevailed and all business was suspended.

"A very and the clouds of ashes which begins with the district."

timber through the United States

THE HORRORS OF ST. PIERRE

in the smoke which issued from it greatest anxiety prevailed and all busines was suspended.

"A very anxious morning was passed, Martinique, May 4. Thanks, however, to sea breeze from about 11 a. m. the situation then appeared better; but, as the breeze did away at sunset, a large quantity of assagain began to fall and the mountain and environs presented a most dismal spectac causing much alarm as to what the nig would bring forth. Nothing happened, ho ever, and on Monday morning (May 5), though everything was quite serens, the pect was decidedly encouraging. Less citement prevailed.

"At about 9 a. m. on the morning of the pect was decidedly encouraging. Less citement prevailed.

"At about 9 a. m. on the morning of the pect was decidedly encouraging. Less citement prevailed.

"At about 11 o'clock the Tepazee arriy. The party reported the steamer Topaz one of the boats of the Compagnie Gira and had started for St. Lucia at 5 a. m. "At about 11 o'clock the Tepazee arriy. The party reported that at noon on Monday 5, a stream of burning lava had a denly rushed down the southwestern should be the Rivlere Blanche, the bed of whis dry at this esason of the year, had over the Rivlere Blanche, the bed of whis is dry at this esason of the year, had over the which appeared to rise to a height of so 26 feet over an area of nearly a quarter a mile. When the torrent had pouned it into the sea it was found that the Gus sugar factory, situated of the beach is the mouth of the Rivlere Blanche, some miles distant from the mountain and from St. Pierre, was entirely embedded lava, the tall chimney alone being visited. the mouth of the Riviere Blanche, some use miles distant from the mountain and two from St. Plerre, was entirely embedded in lava, the tall chimney alone being visible. The burning mass of liquid had taken only three minutes from the time it was first perceived to reach the see, five miles away.

"Then a remarkable phenomenon occurred The sea receded all along the western coast for a distance of about 100 yards and returned with gentle strength, covering up the whole of the sea front of St. Pierre and reaching the first houses on the Place Bertin. This freated a general pane, and the people made terror stricks, for the hill. Though the sea retired again, without any great damage being done ashore or affort, the panic continued, intensified by the terrible detonations which broke from the mountain at short and irregular intervals, accompanied with dense emissions of smoke and jurid flashess of fame. This was awful

mountain at short and irregular intervals, accompanied with dense emissions of smoke and lurid flashes of flame. This was awful in daylight; but when darkness fell, it was more terrible still and, at each manifestation of the volcano's anger, people, in their night clothes, carrying children, and lighted by any sort of a lamp or candle they had caught up in their baste, ran out into the dark streets, walling and screaming and running aimlessly about the town. The mental strain becoming unenduring, the Topazee was got ready at 3 a. m., the refugees hurrically went on board and started for St. Lucia. At 2 p. m. the gentlemen of the party having placed their families in safety, returned by the Topazee to Martinique.

"In the meantime, telegrams were being sent from Martinique imploring that a steamer might be chartered to bring away the terrified people from St. Pierre, but the superintendent of the Royal Mail Co. at Barbados would not allow one of the coasting boats, the only steamer available, to go to Martinique. At a little before 5 p. m., cable communication was interrupted and remains so."

The people who enjoy sured at the St. Steph following entries have 2.25 Class—Barbadoes or the coasting boats, the only steamer available, to go to Martinique, At a little before 5 p. m., cable communication was interrupted and remains so."

NOT FOUND YET.

Mrs. George Fitzpatrick has now been missing for a week and although diligent search has been made by her husband and friends absolutely no clue to the whereabouts of the young woman and her child has as yet been obtained. Whether she carried out the intention of drowning herself as expresed in the letters to her husband and grandfather, or whether she has spne away from the city, promises to

remain a mystery. No word has been received from Mrs. Fitzpatrick's relatives in Boston to whom it was thought she might have gone. One thing about the affair which tuzzles her friends is that if she in-tended drowning herself there was no need of the money she took away with

SIXTY WOUNDED.

MADRID, May 22.—Sixty persons have been seriously wounded, some of them sustaining fatal injuries, in a fight which has taken place between inhabitants of the neighboring villages of Cleiros and Sada, province of Galicia. The encounter was due to local squabbles.

BOERS AS BRITISH COLONISTS.

The Boers must look the facts in the face, go back to their homes and families and open the way to the return of several thousand of their kinsmen, now held as prisoners by the British in St. Helens and Ceylon. They must bow to the inevitable and play their part as men in helping to found another Canada or Australia in South Africa.—Times, Philadelphia.

BURNED AT STAKE.

Devilish Scenes Enacted at Lansing. Texas.

LONG VIEW. Tex. May 22.-The ulmination of a man hunt which has was reached today, when Dudley Morgan, colored, who assaulted Mrs. Mc-Kee, wife of a Texas and Pacific foreman, at Lansing, Texas, was burned at

the stake near Lansing. It was learned this morning that the negro had been captured and was beng take nto Lansing for identification, and by 11 colock great throngs had gathered at the Lansing switch and, looking over the ground, decided to make arrangements to burn the negro. The place of execution decided upon was an open plot hedged in by high trees. The trees were literally lined with people an hour before the negro arrived. The train was met by a great crowd of people from surrounding towns. The prisoner was taken from the train to the section house and was and several negroes who worked with Morgan. The negro was escorted by 200 armed men to the place of execution. As he was chained to the stake he said he desired to make a state-

The crowd surged around him, and those in charge tried in vain to make them stand back and keep quiet while the negro talked. He implicated another negro named Franklin Heard, saying Heard was to get part of the money which was to be stolen. Morgan confessed to having committed the crime, and after being tied to the stake with his hands and legs free, the mem-bers of the meb began to take ties from a fire already built and burn out his eyes. They held the burning tim-bers to his neck and, after burning his clothes off, to other parts of the body. The negro screamed in agony. He was tortured in a slow and painful manner with the crowd clamoring con-

As soon as the heat would permit parts of the skul and body were gath-ered up and carried away. When the fire died down the crowd took two men who caught the negro and held them over their heads while they held their Winchesters in their hands and were

TRUE STORY OF FLYING CHILDERS

(London Spectator.)

Sir—I happened to read in the Spectator of April 26 a review of "A History of the Turf." and among other interesting comments something of the history of Flying Childers. The late Mr. Childers gave me the following account of that famous horse:

The Duke of Devonshire of the period was in the habit of buying young racehorses from Mr. Childers of Cantley, near Doncaster; and on one occasion, having purchased several, Mr. Childers said: "I have this plain colt: I don't care about him, and you have paid me so handsomely for others that I will throw him in with the lot." He was, therefore, brought to Chatsworth, and but for an accident would have remained neglected and untried, being for a time used as the post-horse. On one eccasion, as the lad was riding him back with letters, the Duke's trainer was galloping some of his horses in the park. One of them being an indifferent starter, and the post-horse, Flying Childers, being pulled up by his rider to see the horses in training, the trainer asked him to lead off the bad starter, when to the amazement of all present Flying Childers easily galloped away from his competitor, was put in training, and became one of the most celebrated of the racehorses of the past.
