

VICTORY IN SAYS PROTHERO

Board of Agriculture rapidly approaching the agriculturists Speedily

Addressing a meeting of farm-Edmund Prothero, president, said the country was in approaching the rapids. If him and Baron Rhonda, the y would be swept over, said

reason of this later on. Each must have a strong joint or niche the same distance from the ground, and each joint or niche must be a good distance up the log, say from three to four feet from the top of the equal logs. By means of these niches four other logs are fastened to them in such a way as to form an outline of a great cube. As Uncle Will talked brave little Flako was being constructed out of the elder bushes by his clever fingers. The children eyed it in silence and their uncle continued with his tale.

"This square," he explained, "forms the foundation of the Flako. Logs of uniform thickness are placed side by side on the top of this and then fastened firmly together to ensure firm footing. Then branches of fir and spruce are lavishly spread over them, making it look very picturesque by the way, and the Flako is ready for use. In the Fall and early winter the braves bring their catches here and laid them on the evergreen boughs. There they freeze and are safe until they are needed."

"But Uncle Will," cried Jack, "How did they get their things onto the Flako. It was taller than they were, was it not?"

"Many, many times taller," his uncle replied, "but this is how they managed. Two trees were cut down and their branches cut away save certain ones which served as supports for rungs. It would never have done to leave a ladder with fixed rungs there, for the Flako was not in the heart of the village."

"The rungs ladder was a very good thing. When not in use, the rungs were carefully stored in the tent of the chief or hidden by the keeper of the Flako."

"And what about the tallest post, Uncle?" asked Beth timidly.

"I had almost forgotten about that," replied Uncle Will. "Sometimes very heavy loads were lifted up on the Flako. The dead were stored there during the bitterest part of the winter, and the tall post helped them in hoisting. It was always useful in mounting and hanging choice cuts on."

"Dismembering-dismembering," called the telephone and Uncle Will sprang to answer it leaving the children to examine the little Flako of elder bushes before them.

Petrograd, Feb. 1.—The Bolsheviks have captured Orenburg, capital of the government of Orenburg.

Odessa is the most important city and seaport of southern Russia and the fourth city of the empire in population. It is located in the government of Kherson, a short distance east of the mouth of the Dnieper River, 80 miles southwest of Kherson and about 400 miles northeast of Constantinople. The city is of modern growth, and well laid out and as a western Europe rather than a Russian aspect. The Imperial new

HOCKEY PLAYER WINGED FIVE GERMAN PLANES

Toronto, Jan. 30.—At the front since last October, Flight Sub-Lieut. Geo. C. Mackay, who last year played on the defense of the Aura Leo, O. H. A. junior champions, has already brought down, single-handed, five German airplanes, including the double seater. According to word received by his father at Mimico, Lieut. Mackay on one occasion tackled two Hun machines and succeeded in bringing both of them down.

"It is hot work, but I wouldn't miss it for anything," he writes.

IS GERMAN STRIKE PART OF HUN MILITARY PLAN?

THE ALLIES WARNED NOT TO PLACE TOO MUCH IMPORTANCE ON GERMAN STRIKE OUTBREAK

Clash Between Strikers and the Police in Northwestern Part of Berlin—Indications That Industrial Upheaval Will Collapse as Soon as Government Wills It—German Press Says Strike Has Reached Its Climax

London Mail States That If Revolution is Talked About in Germany—It is Because German Government Wants It Talked About—No Strike Can Happen in War Time Unless Government Sees Profit in It—Appeal to the British and French Workmen to Strike Possibly.

Amsterdam, Feb. 1.—There was a clash between strikers and the police in the northwestern part of Berlin Thursday. One policeman was killed and a dozen strikers injured. There were minor disturbances in other sections and in the suburbs of Berlin.

The German press generally agrees that the outbreak has reached its climax in Berlin, and is now receding. The demonstrations are said to show lack of centralized control.

Reports from the chief industrial sections of Germany indicate that the strike movement nowhere is finding the support necessary to carry it along.

Situation Uncertain.

London, Feb. 1.—Little fresh information on the strike movement in Germany had come through early today and virtually all the news in the morning papers had been delayed in transmission. None of the Berlin newspapers of Wednesday's date have arrived in Amsterdam, and several of them are not printing owing to the strike among their employees.

Delegates representing the strikers, according to Amsterdam reports, attempted to interview Chancellor Von Hertling, but he refused to see them, as had Herr Wratz, minister of the interior.

The actual situation today (Thursday) is extremely vague. The scarcity of news indicates that the situation has been fair and decidedly cold in Manitoba and Saskatchewan the temperature has been a little higher than it was yesterday.

OLD FOLKS NEED "CASCARETS" FOR LIVER, BOWELS

Salts, calomel, pills act on bowels like pepper acts in nostrils.

Enjoy life! Don't stay bilious, sick, headachy and constipated.

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscular.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses to neglect their gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

Commissioner Pringle, Mr. Stewart, government counsel, and Geoffrey Clarkson of Toronto, who has been in charge of the accountants' work in connection with the equality, were also present.

THE POLES REVOLT AGAINST RUSSIANS

Polish Legion Declares War Against the Bolsheviks.

London, Feb. 1.—News has reached Kiev from Minsk that the Polish legion has declared war against the Bolsheviks, a Reuters despatch from Petrograd says.

Both the German and Russian armies are made up of Poles. The Germans had organized a Polish legion but it was disbanded several months ago to make way for a Polish national army. Minsk is behind the Russian line, which would indicate that the Poles in the Russian army have revolted against the Bolsheviks.

NEW GOV'T BUILDING FOR OTTAWA

Dominion Government Proposes to Erect Office Building of Immense Size.

Ottawa, Feb. 1.—The Dominion government proposes to erect in Ottawa, a large office building of immense size. It will be done in the coming year if plans now under way develop. As yet, it is not understood whether the site will be on Wellington street, where the government owns all the property on the north side of Pooley's Bridge, or elsewhere. The necessity of the new structure is brought about owing to the tremendous demand for office space. The war and the bodies it has created have called for very large amounts of office space. Former hotels and even private residences are being adapted to the needs of the government. The plan are now being considered by the authorities of the department of public works.

The new building would cost upwards of a million dollars.
