R. B. HANSON IS ELECTED IN YORK-SUNBURY

With One Poll to Hear From
He Has Lead of 963
Votes.

MAY BE REDUCED
IN FINAL COUNT

Victor Criticises Extremely
Radical Views of Some in
the Campaign.

(Continued from page 1)
Mr. Hanson stood at the front of the hall; it is one of the farmers' strongholds, just as is Canterbury Station, where John D. Palmer, who has been one of the most active workers for the government throughout the campaign although defeated in the party's convention for the nomination, stood. Mr. Stairs stood at the back of the hall, and rolled up a good majority for himself there.

Result of Poll.

Mr. Hanson, the successful candidate, when asked to make a statement today on the result of yesterday's polling said: "The result of the York-Sunbury polling yesterday unquestionably demonstrates that once the electors appreciate the true political issues now before the public the verdict is bound to be in favor of a confirmation of the fiscal policy which has been in force in this country with the common consent of all shades of political thought, for more than a generation and under and by means of which the Dominion has grown into a nation. "The constituency is about fifty rural including Sunbury which is entirely so. The country polls, with the exception of a few, divided equally or gave a government majority, thus showing that public opinion in the agricultural district is against the agrarians' policy of free trade and direct taxation."

Preach Radicalism.

"In those polls where a slump occurred in our vote our organization has abundant evidence that extremely radical doctrines verging on socialism were proclaimed from the platform and from house to house by imported western speakers who momentarily carried all before them. "The result was undoubtedly a complete victory for the established fiscal policy of moderate protection and sanity as against experimental free trade, coupled with a most insidious appeal to class prejudice and a campaign of misrepresentation and is creditable to both the rural and urban electorate of a typical semi-rural constituency and should be treated by the government as a mandate to carry on."

Mr. Stairs, the defeated farmer's candidate who was at his home at Southampton, said he did not wish to make any statement at this time.

Smallest Class In Years At Normal

Fairville Student Valedictorian for Exercises to be Held on Friday.

Fredericton, N. B., May 29.—The smallest class of teachers to graduate from the Provincial Normal School for the past twenty years will be that of this year, when only 176 future teachers will go on to teach the youth of New Brunswick.

The closing exercises will take place in the Assembly Hall on Friday morning, June 10th. At the evening reception the valedictory will be delivered by G. A. Richardson of Miramichi, while the class prophecies will be given by Miss Penion of St. John and Miss Jean Sharp of Woodstock.

There are at present 176 students attending the Normal School, of whom 75 will be taking first class license examination and 101 second class. There are only twelve young men this year, and only one woman.

The French class, numbering only eight, completed their studies on May 24th, when they wrote their final examinations.

Bad Forest Fires

Are Near Rothesay

Fire Raging for Some Days and Burned Over Three Hundred Acres.

Several brush fires were observed burning in the vicinity of the city yesterday. One which broke out at Red Head during the afternoon was checked without any serious damage being done, and another was put out near Ashburn. The most serious of all is that which is burning a short distance above Rothesay, between the Post and Village Roads. It first started on the 24th and has already burned over some three hundred acres, but has not got into any big timber as yet.

Becoming Dangerous

It had approached within thirty or forty rods of the main road yesterday afternoon, and while nothing could be done to check its progress, a ready corps of workers collected barrels of water prepared to protect the house and barns from falling embers.

The lack of rain has made the woods as dry as tinder, and it is feared that if the wind veers to the north-east a number of houses will be endangered, amongst others Jack Dolan's, Kindred's, and five or six others.

THE VETERANS' FAIR

Over fifteen hundred people attended the Veterans' Fair in St. Andrews this Saturday evening. The door prize, a half a ton of coal, was won by Miss No. 1184. The Ladies' Bazaar prize went to Mrs. J. Garay, his fiancée to Mr. Parit. The fair is in its eighth year and has been a success in every way. It is a credit to the veterans and their families, and it is a credit to the community as a whole.

Mr. Stairs, the defeated farmer's candidate who was at his home at Southampton, said he did not wish to make any statement at this time.

GIRLS BETTER DESPITE STYLE IT IS CLAIMED

Big Improvement Over Twenty-Five Years Ago Say Friends.

SPIRITUAL STATE
UP TO MOTHERS

Children Need Pleasure and Parents Should See They Get the Right Kind.

New York, May 29.—Boys and girls today are truer, cleaner and better, despite rouges, powder, ear plugs and short skirts, than they were two, or even one, generation ago, according to the opinion voiced by the New Yearly Meeting of Friends, in the Friends' Meeting House, here, Fifteenth street and Rutherford place. The thought was advanced that if mothers dress as they should, children will likely follow.

One friend declared "it is as natural for a child to dance as to breathe." Esther H. Cornell said most Quaker parents are moderate in dress and declared the young people of today have ten times as much temptation as when she was a child. She counselled placing responsibility of choice on the young.

Young People Want it
That view was supported by Dr. John L. Carver, principal of Friends' Seminary, who said "The young people want to taste life." He said he believes 1921 is but repeating the Elizabethan age, the children not being greatly to blame, as they merely want to live. He felt the roughest of their religious nature was the thing to keep them from extremes.

"Great opportunities are offered Friends today, are we going to be ready for them?" queried Elbert Russell, director of Woodman School, Swarthmore, at this morning's meeting. He uttered the fervent wish that "God may make us as good as people think we are, and that growing souls may be big and strong enough for the tasks before us."

Depends on Parents.

He declared usefulness was measured by the nourishment of the spiritual life, and urged children get the same spiritual climate in which the parents grew up. He deplored the giving way to the calls of busy lives which hinder the holding of family worship and attendance to religious duties.

Other speakers at this morning's devotional session were Albert K. Lawton, Dr. O. Edward Janney, Isaac Wilson, Jas. Stringham, Diana Clough, A. Pearson and James McAfee, the meeting closing with prayer by J. Barnard Walton.

The question of amusements claimed attention at the afternoon meeting, introduced by Wm. Walter Jackson, who touched upon films and methods of division and raised discussion as to whether friends' children occupy the place they should and, if not, where lay the fault.

FAIRVILLE HORSE BADLY ABUSED

Taken Without Owner's Knowledge, Overdriven and Collapsed on Chesley St.

A horse said to be the property of a man in Fairville collapsed on Chesley street late last night and from all reports it is a case that the S.P.C. officials will probably give some attention to. The facts could not be learned, but it is understood that two or three young men took the horse away without the knowledge of the owner and took a drive to the vicinity of Hampton, returning to the city last night. It was about midnight while the men were returning to Fairville that the exhausted animal fell down on Chesley street. It was hauled on wagon to a barn near by early this morning where an endeavor was being made to save its life.
