Friday Morning. Address in Medicine, H. A. Lafleur, M. D., Montreal.

Friday Afternoon. Address in Surgery, A. Primrose, M. D., Toronto.

Saturday Morning. Address in Medicine, H. A. Lafleur, M. D., Montreal.

Saturday Afternoon. Address in Surgery, A. Primrose, M. D., Toronto.

THE BIG STORM.

Damage of Much Extent Done by the Very Heavy Rain.

The rain storm, which started Sunday night, did not finish until yesterday afternoon. It was one of the heaviest ever experienced in this vicinity.

The damage done was quite bad; farm lands were in some cases almost ruined for this year, while about the city many basements of buildings were flooded and streets had large holes made by the rush of water.

At Rockwood Park the gardens were almost destroyed and practically the whole work of the spring has been undone.

Flowers and shrubs were washed out and the gardens yesterday morning looked in a wretched state. There were two small washouts on the C. P. R. near Grand Bay, which delayed traffic for a couple of hours.

In the North End the new rise range was flooded and it was feared that considerable damage will be the result.

The cellar in the I. C. R. depot was flooded and had to be pumped out. Many buildings were low ground, but were looked after in the same manner.

Three washouts were made in the Shore Line track within a few miles of the city.

LABOR MATTERS. The Cleveland Conference Getting Close to Agreement—Printing Pressmen's Convention.

Cleveland, O., June 21—There was no session of the conference between the amalgamated association and the manufacturers this morning, but the conference got together this afternoon and renewed their discussion on the annual wage scale.

Secretary Bert, of the Manufacturers' Association, announced that the parties had nearly agreed on the contentious scale proposition, but that they were not so close on the wage scale, a matter which session had been submitted by the manufacturers. This is being discussed at a joint secret conference.

Washington, June 21—The printing pressmen in the international convention here today, decided against a resolution requesting members of the union to refrain from joining other unions in the strike.

The convention also voted down a resolution demanding a readjustment of the relations of the pressmen with the Typographical Union in the matter of labels.

A resolution providing for the reference of disputes with publishers to the executive committee for conference with representatives of the union of American Newspaper Publishers' Association was adopted.

President O'Connell, of the Machinists' Union, asked the co-operation of the pressmen in settling the difficulties of the machinists with the press manufacturers.

A motion authorizing the pressmen to act as a committee to aid them was adopted.

Wedding at Charlott. The marriage of Miss Mary A. MacPherson, daughter of Mr. and Mrs. Alexander MacPherson of Charlott, to Mr. Hubert S. Harrison, the popular manager of the Presses Limited, was celebrated here at five o'clock Wednesday afternoon last.

One of the prettiest weddings that has taken place for some time in Charlott, Pa. church (Presbyterian) had been decorated by friends of the bride and groom.

The bride wore a gown of white cashmere, with white lace and carried a bridal bouquet of white roses. The choir sang the Voice that Breathed Our Eden.

The pastor of the church, Rev. J. M. McArthur, assisted by Rev. Robert Reid of Bathurst, performed the ceremony.

Mr. and Mrs. Harrison were given a reception at the Fairview, New Mills. The boys had gathered in numbers to have their usual fun.

After the bride and groom were formally congratulated, this being over they all sang with a will for He's a Jolly Good Fellow, and then left for home. Both bride and groom are deservedly popular. They are well and favorably known throughout the Hay Chase country.

Mrs. Harrison comes from one of the best families of the North Shore, and is a niece of James Reid, M. P., for Rosignolle. They will reside at Fairview, New Mills.

Protection and Reciprocity Not Incompatible. It is becoming every day more evident that in order to keep and to extend its foreign trade it will be necessary for the United States to apply in its commercial relations with other countries to a far greater extent than it has done heretofore the principle of reciprocity.

The current of instructed and interested opinion in this direction was clearly and strongly demonstrated at the recent convention of the National Association of American Manufacturers, but it is a mistake to suppose that there has been any new revelation upon the subject, or that the advocates of the policy of protection who are now favoring tariff reciprocity as a means of commercial development, are themselves in any way in the charge of inconsistency or show that they have experienced a change of heart.

Protection and reciprocity are not incompatible, and for years have occupied a prominent place among the policies of the Republican party.—Philadelphia Enquirer.

Mrs. McKinley Much Better. Washington, June 24—For the first time since she was brought home from California, Mrs. McKinley today was able to go down stairs and join the president while the latter was at luncheon.
