

## Pictures Against Talk

NO matter how complicated his cream separator, every "bucket bowl" manufacturer claims his machine is simplest and easiest to clean. Even the makers of disk machines—with 40 to 60 pieces inside the bowl—make the same claims. Yet none of these "bucket bowl" fellows dare put pictures of their separator bowl parts into their advertisements—they all realize that pictures would make their claims ridiculous.

The Sharples Dairy Tubular Cream Separator is, without exception, the only simple, sanitary, easy to clean separator made. We put pictures against "bucket bowl" talk. We frequently show you pictures of the light, simple Dairy Tubular Bowl and of heavy, complicated "bucket bowls." Compare them. They tell the whole story. It will take you less than thirty seconds to put "bucket bowl" claims where they belong.

If you want to avoid work, expense and dissatisfaction, get a Sharples Dairy Tubular. The manufacture of Tubulars is one of Canada's leading industries. Sales greater than most, if not all, "bucket bowl" separators combined. Write for catalog No. 193.

One pan contains the single little piece used in Sharples Dairy Tubular bowls. The other contains nothing but disks from a single "bucket bowl." Which is simple and easy to clean?

## How Grocers and Farmers can make money in the Canning Business

Write for information

In every retail and wholesale Grocery Store—on every Farm—there is an enormous waste of perishables every season. This means much money to you, Mr. Farmer—Mr. Grocer, that can be saved with a MODERN CANNER. The MODERN CANNER only costs \$30, \$60 or \$90—three sizes—but it pays you handsomely, even before the first season has expired. It Cans 1,000, 2,000 and 4,000 Tins in 10 hours. A mere youngster can operate it. Does the work easily, without waste, and does it clean. MODERN CANNED goods command a high price—because you can them FRESHLY. Our catalogue gives you mighty money's worth of information, and it's free.

## IMPORTANT TO FARMERS

Your fences are your fortress against loss and damage. They must be strong enough to resist invasion from without, and to keep within bounds your flocks and herds. You can't afford to take chances on soft, slack, or brittle wire fences, which may fail just when most needed.

## Peerless Woven Wire Fence

has the elastic springiness and resisting qualities that make an A 1 farm fence. Once up it lasts—no breaking—no falling down. There are reasons why. We can't tell them all in this ad, but if you will write to us we will send you some valuable fence facts.

## This Dain Side Delivery Rake Adds Value To Hay

Because, it air cures the hay preserving the rich juices. Such hay is sweeter, better color, worth more to feed or sell. It is a Tedder and Rake in one—only more and better than either. Three sets of slowly revolving rake teeth turn clover, alfalfa, timothy or any hay that grows, into loose, continuous windrows exposing every bit without harming the young, tender leaves. The teeth can be raised to rake above trash. They can be slanted forward to deliver heaviest hay into a fluffy windrow.

A cushioning spring relieves strain and jar over roughest ground. Like all

## DAIN HAY TOOLS

this rake has many excellent features—is the best of its kind. Built of finest selected material—strong and so simple it can be operated by any one the average farmer.

**Wandy Hay Book** Free. Write for it. We will send you a copy of our "Wandy Hay" book—full of valuable information on hay making. Mention this paper.
