

WHY NOT YOU?

You have doubtless admired so-and-so's greenhouse—perhaps envied it. To see the owner cutting a bunch of flowers while you passed, muffled up against the blizzard, aroused even deeper longing. When you write us regarding prices, you may find you have been denying yourself and your family quite needlessly.

"Mother, I've Cut It"

Be Careful Now

A little wound—even a pin-prick—opens the way for germs. What you apply should be utterly sterile. It is folly to take risks.

You should have on hand
B & B Absorbent Cotton
B & B Gauze and Bandages
B & B Adhesive Plaster

Then call a physician—always—for more than a minor wound.

Be Sure of B&B

B&B dressings have, for 22 years, been made to meet hospital requirements.

They are made in a model laboratory, under ideal conditions, constantly supervised by highly-skilled chemists.

They are twice sterilized by costly apparatus, in the most efficient way. The rooms are equipped like operating rooms, filled with washed air.

Then our Cotton is protected by a Handy Package. You never touch the unused part—never remove the roll.

It also comes in germ-proof envelopes (B&B Arro Brand Cotton)—just enough for one use in each. So does B&B Handy-Fold Gauze.

These are extreme methods, but essential to safety. Surgeons and hospitals require them. Anything less than B&B standards involves vast risk.

Fumigation

So with fumigation. Half measures are worse than none. They simply make danger seem safe.

B&B Fumigators have twice the usual strength. They accord with Government recommendations. You may feel sure that no germ lives where their gas penetrates.

Don't be careless in this war on germs. They are too dangerous. Do as surgeons do—be utterly sure. Insist on the B&B standards.

Always call the doctor—remember First Aid is only first aid.

BAUER & BLACK, Makers of Surgical Dressings, Chicago and New York

B&B Absorbent Cotton

Protected by a patent package. The unused part stays untouched.

B&B Formaldehyde Fumigators

Ready for use and twice the usual strength. Sizes for all rooms. The gaseous germicide enters every crevice.

TIME was, when many people were reluctant to make Wills. They felt that taking death into their calculations, somehow invited it.

To-day, every man realizes that for his dependants the need of careful control of his resources is as pressing after his death as before.

Many have found our advice helpful in providing such control. We invite, and shall respect, your confidence.
