Create your own future.

The success of our business is based on innovative thinking and bold new ideas.

That's why we provide an environment that fosters individual skill and creativity.

And because we're IBM Canada Ltd., we can provide the resources to enable our people to think freely, to pursue their goals and break new ground.

Here's what some recent graduates have been doing at IBM:

- Mark Ogden, University of New Brunswick, established the fastest production testing process used by IBM for high-end memory cards.
- Kathy Wylie, McGill University, planned and implemented a self-service

banking application using touch-screen technology.

- Ashwani Kohli, University of Waterloo, enhanced a complex piece of PS/2 software into a successful product function called PC Communications Link.
- Jayne Campbell, McMaster University, represented Canadian customer requirements in the worldwide development of a new point of sale product.
- Alger Yeung, University of Windsor, was a key developer of the Realtime Plant Management Integrated System... a total solution approach to plant management.

When you're thinking about your career options, think of IBM.

It's the thought that counts.
