

V. GEOGRAPHY

University of Toronto Department of Geography Research Publications,
University of Toronto Press.

Majority of volumes in the series are concerned with issues in Canadian geography. Includes some works of general nature.

\$66.00

13 volumes

Studies in Canadian Geography, University of Toronto Press.

This series is original in its purpose of re-evaluating the regional geography of Canada. The editors of the individual volumes have sought to interpret the main characteristics and unique attributes of the various regions rather than to follow a strictly inventorial approach.

\$60.00

6 volumes

Canadian Urban Trends, Copp Clark Publishers.

Series started in spring 1976 and volumes in preparation centre on Canadian urban problems and issues.

\$38.00

3 volumes
