

Farmers Binder Twine Co.

LIMITED

Brantford, Ont.

Ten Thousand monuments like this will mark the sale of the Farmers' binder twine in 1904. Each monument a ton, each ten two hundred miles, aggregating the enormous total of more than two million miles of twine. **LINCOLN SAID,** "follow the people and you cannot go far from right". Finally **WE ARE NOT IN THE COMBINE** and that is why the Patrons and Farmers will buy the binder twine made by themselves in Brantford in preference to any manufactured in this Dominion.

1. Do you realize the fight we are putting up for you, as farmers, against every character of combine and how helpless you would be without this one regulating Company? Cotton at 17c. lb, hogs \$4.50 per cwt., stoves, coal oil, agricultural implements, woodens, wagons, elevators, lumber and even flour coming to you through the hands of Combins and Trust should have a tendency to make you very loyal to this mother Company of Co-operation, in the interest of your great country, your homes and children. The man is little better than insane who orders his twine through the winter from our opponents without knowing even a price or hearing from this Company, and still they keep on doing it, driving nails into their own coffins. Apply for a farmer agency—no one else can represent us.
