DILLON STANCHIONS

THE lock is constructed in such a way that the more pressure the cow puts on the stanchion, the tighter it holds.

The hinge at the bottom is forged out of the bars of the stanchion so that the bars form the hinge, making the strongest hinge on any stanchion made.

It is impossible for the cow to open the stanchion, and yet it is easily opened with one hand even with a heavy mitt on.

Stanchions made in 3 sizes, 6 in., 7 in. and 8 in. wide.

Fittings supplied for either cement or wood floor.

DILLON STALLS

THE simplest and strongest style of stall made. For connecting our stalls we use our new patented steel clamp, which only requires one bolt to make the joint absolutely rigid. This bolt which holds and tightens the clamp goes through the pipe, making it impossible for the joint to pull apart.

Either stalls or stanchions can be supplied separately. Stalls also furnished for wood floors, but unless otherwise ordered we will send them for cement.

We supply the end to complete the stalls at the end of a row, without extra charge.

DILLONS SELL DIRECT

You Save the Agent's Profit

When buying from us you don't have to help pay an agent's salary or his expenses. Send for our catalogue on any of our lines. It will give you a good idea of what improvements you can make for a small outlay.

Imported Shorthorns

We have, in quarantine, 16 imported bulls, four cows with bull calves at foot and safe in calf again and one good two-year-old heifer. These cattle were selected for us by one of the best judges in Great Britain. They are a good lot and represent the very best Scotch breeding. They will be released from quarantine early in November. We have eight young bulls some of which we would like to sell before our imported stock comes home. There are some choice ones among them.

When writing advertisers, will you kindly mention "The Farmer's Advocate."

Gossip.

W. A. Dryden, of Brooklyn, Ont., writes in changing his advertisement: "My trade in Shropshire ram lambs has been particularly good, and except in one case where I made a bad mistake, each customer has written to me saying that he was well pleased or entirely satisfied, and some even beyond their expectations. All these satisfied customers were supplied by correspondence, and while they are pleased, it is even more gratifying to me to have such satisfactory business. Two shearling rams, which were saved for an order last summer, are not to go now, and so are for sale. One is a right good, thick sheep, suitable to head a pure-bred flock, and the other is a big, strong ram, just right to sire a lot of thrifty, robust lambs, out of grade ewes. I have three little bulls born in January last which I want to sell at once, and if any of your readers want to get a young bull cheap, for use a little later in the season, they should see these at once. They are all of straight Cruickshank families, and all are sired by the great breeding bull, Archer's Hope. One is a red, and the other two are roans. They are in good growing condition, just right to go ahead in the new owner's hands. If older bulls are desired I can supply them, too, and would be glad to tell prospective purchasers what I have."

Prospective exhibitors of sheep at the Ontario Provincial Winter Fair, will be pleased to know that the prizes offered this year will exceed any former show. The classification has been enlarged, and there will now be a place for ram under one year, in each of the Breed Classes, \$10, \$7, \$5 and \$3, being the division of the money for this exhibit. The Breed Association Specials will remain the same as heretofore. The Ontario Sheep Breeders' Association will donate \$200, to be divided among the eight Breed Classes, \$25.00 each for a pen consisting of ram lamb and two ewe lambs. Swine breeders will note that barrow, six months and under nine, and barrow and sow shown by amateurs, are dropped from the list as it was previously. Additions have been made for boar, six months and under nine; boar under six months; champion boar and champion sow, in all of the Breed Classes, as well as a class for butcher hogs, which will be a new feature at the Ontario Provincial Winter Fair. Formerly bacon hogs were shown in pairs, both alive and for the block test, whereas this year the exhibits will be single, and the difficulty that often confronted an exhibitor in getting a well-matched pair will be overcome. This should result in several more entries and better competition. Throughout the Swine Department bigger prizes are offered, corresponding to the general increase in other Departments of the Fair.

WOODHOLM SHORTHORNS.

One of the first principles of the livestock breeding law is to procure the very best individuals possible of the breed for the foundation stock. This was the fixed conviction of G. M. Forsyth, Claremont, Ont., when he set out to establish his well-known Woodholm herd of Shorthorns, and also in the additions he has since made to the herd. The tribes or strains selected by him show that he had a strong grasp of the most popular and best-doing families of the breed. Bruce Augustus and Bellas, Cruickshank Duchess of Glosters and Clementinas, Lavenders, Kiblean Beauties, Matildas and Fortunas, were the lines upon which he planned his faith, and the splendid success which has crowned his efforts in his breeding operations show that he made no mistake. In show that he made no mistake. The majority of them are daughters of such well-known and successful sires as Prince Gloster, Brilliant Star (imp.), Archer (imp.), Dorothy's King (imp.), Royal Bruce (imp.), and the present stock bull, Lord Gordon (imp.), a Br- with Bud-bred son of Golden Chief. He is a solid red, eight years old, straight of line, up to a large size, and as a sire of breeding age, and he is for sale. He is safe, active, and sure, and a good bull to head any herd. Mr. Forsyth has also for sale a few sons of this bull, one a Lavender, one a Clementina, one a Bruce Bella, etc. He can also spare a limited number of heifers.
