What Readers are Saying About The Farmer's Advocate.

Never in the history of "The Farmer's Advocate" have the letters received been any stronger in their commendations, and never have readers so generally expressed their gratitude for the service rendered them by this paper. While it is impossible to find space to reproduce all the encouraging testimonials which have been received we are taking this opportunity of publishing a few in order to let readers know what other subscribers are thinking and saying about "The Farmer's Advocate and Home Magazine." Following are a few selected at random from the mails:

We take pleasure in enclosing \$1.50 for our subscription to "The Farmer's Advocate" for 1919. "The Farmer's Advocate" is the best farm paper in America. We have paid nearly double the amount for American papers not nearly as good.

ALPHA GAS ENGINES faithful as a work-horse

DEPENDABILITY is the keynote of the Alpha. It RUNS when you want it to—chugs away all day and you never need to think about it.

It's always reliable; always ready.

Why?

Because it's so simply and sturdily designed and so expertly and honestly built.

There's nothing complicated about the Alpha—no electric batteries; no delicate attachments to "keep you guessing."

Just oil it; turn on the fuel—either gasoline or kerosene—and the Alpha does the rest.

It takes a whole lot of the drudgery out of farmwork, and, in addition, saves time and fuel.

JUST ASK ANY ALPHA USER

Alpha Gas Engines are made in 12 sizes, 1½ to 28 H. P., and in stationary, semi-portable or portable style, with hopper or tank-cooled cylinder.
