**LONDON, ONT.**

**GOSSIP.**

Mr. Duthie, of Collynie, and Mr. Marr, of Upper Mill, Aberdeenshire, recently visited Mr. Deane Willis, of Bapton Manor, Wiltshire, and each purchased a young Shorthorn bull, both roan, tracing to Sittyton cows. This looks like reciprocity and may be good policy on the part of breeders.

A. W. Smith, Maple Lodge, Ont., writes: "We have recently sold a very good, large, 18-months-old Shorthorn bull, got by Calithness, to Mr. John F. Edmunds, Stratford, and a handsome red 15-months-old bull calf to Mr. Wm. Cullen, Owen Sound, Ont. Orders for Leicesters are coming yet. The new year started in with orders for 16 in one day, reaching from New Brunswick to British Columbia."

**JAMES DORRANCE'S BERKSHIRES.**

Mr. James Dorrance's (Seaford, Ont.) Berkshire herd were in no way behind former years when we called a few days ago. Mr. Dorrance is one of those men who considers the demands of the times, breeds to a specific type, and sells upon exceedingly liberal conditions, giving a purchaser the benefit of the best, he is able at as reasonable a price as possible. Much trouble and expense has been gone into in providing a suitable pen, which fills the bill very satisfactorily, and during our visit we saw a young litter in thrift and comfort. Among the 25 head now on hand are three very choice brood sows, kept in excellent breeding shape, and although Mr. Dorrance frequently fits and exhibits a few, he never allows his brood sows to become overfat or remain clumsy during their littering season. Baron Lee blood predominates in the herd. The length, depth, smoothness, and uniformity in type, size, quality and markings stamp them as a herd brought to a standard. Among the matrons we might mention the two-year-old Queen of Scott 4660, by Baron Lee 4th and out of Gipsy. Her half-sister, Victoria 5th 5544, out of Victoria 5541, the latter also 2 years old, was imp. from her breeder, Jas. Riley, Thornton, Ind. Rosebud 5212, by Romeo 4049 and out of Juliet 4451, is a year past. With other equally well gotten ones might be mentioned, and coupled with such boars as Ringleader 5315, by Crown Prince 4123 and out of Cherry Blossom, a boar farrowed at Mr. Geo. Green's (Fairview), in whose hands was placed among the winners in his class at Toronto last fall. He is also assisted by a litter brother, of good type and excellent markings. From what we observed we conclude that Mr. Dorrance intends making a specialty of young in-pig sows, for he is in a splendid position to carry out such a course, having on hand some half dozen or so which either have or are being bred, and which are in equal conformation and condition with the other and older stock on hand. One choice, well-marked litter has already arrived, and orders are being booked for spring stock.

A start has been made in Shorthorns in a daughter of a cow imported by Mr. D. D. Wilson, also a bull purchased from Jas. Creaser, Shakespeare, and as Mr. Dorrance has much enterprise and perseverance, with good farm and buildings, we will not be surprised to see this soon become a notable breeding establishment.

**C**OLOR and flavor of fruits, size, quality and appearance of vegetables, weight and plumpness of grain, are all produced by Potash.

**Potash,**

properly combined with Phosphoric Acid and Nitrogen, and liberally applied, will improve every soil and increase yield and quality of any crop.

Write and get Free our pamphlets, which tell how to buy and use fertilizers with greatest economy and profit.

**Vollmar's Perfect Washer**

PHILIP VOLLMAR, CHATHAM, ONT.  
 Live Agents Wanted.

**The Hoosier Needs No Introduction.**

Over 40,000 Drills and Seeders of our manufacture in use in Canada. The only Drill made with lever for instant and perfect regulation of depth of hoe in all kinds of soil while team is in motion. Sows absolutely correct to scale; saves seed, as every kernel is deposited at a proper depth to grow. Purchase only the best and you will be satisfied. We also manufacture Binders, Reapers, Mowers, Rakes, Cultivators, and Pulpers, as good as the best. Send for illustrated catalogue.

NOXON BROS. MFG. CO., Limited, Ingersoll, Ont., Canada.

**THE  
 BEST  
 DRILL  
 MADE.**

NOXON STEEL HOOSIER DRILL

**THE No. 12 CULTIVATOR IS A MARVEL OF SUCCESS.**

The only Cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only Cultivator with a movable tooth seat so that the angle of the teeth can be regulated to suit any condition of soil. Pressure can be regulated to act differently on every section requiring it. The teeth are carried between the wheels instead of trailing behind, as in other machines, thus securing lighter draught. This machine is furnished with grain and grass seed box when required. It has reversible diamond steel points for the teeth; also extra wide thistle-cutting points can be furnished. Examine it and you will buy no other.

NOXON BROS. MFG. CO.,  
 Limited, Ingersoll, Ontario,  
 Canada.

**The Buffalo All-Steel Disc Harrow.**

This is the only Disc Harrow made or sold in Canada having independent adjustable spring pressure upon the inner ends of the gang discs, allowing any amount of pressure to be thrown upon the inner ends of the gangs by the foot of the operator. By this means a perfectly flexible action is secured, and the ground can be worked at a uniform depth. Examine this machine carefully and compare with others.
