

TRIED TWO DOCTORS WITH NO BENEFIT

Then Dr. Williams' Pink Pills Wrought a Lasting Cure

Dr. Williams' Pink Pills have made so many remarkable cures in serious cases that people are liable to overlook their value as a tonic for the blood and nerves in debility and general run-down conditions. That such conditions are the cause of much misery and unhappiness is fully known to those who suffer from them and the need of curing them is as vital as is relief from diseases with higher sounding names. We commend the following statement to any one suffering from weak, thin blood, or shattered nerves. Mrs. Mae Macabee, Gleichen, Alta., says: "A few years ago I became run down, not seriously ill, but just tired and weak all the time. I consulted our family doctor, who gave me tonic after tonic with no effect. I gradually got weaker and weaker until I could not do my work. Then I went to another doctor, who pronounced my case one of decline, and recommended a warmer climate with complete rest. This I could not afford, and I began to worry and fret, until I became a complete nervous wreck. One day while visiting a neighbor an old gentleman who was taking Dr. Williams' Pink Pills for partial paralysis recommended them to me. I sent out and got three boxes, but without much faith that they would help me, but before they were gone I noticed an improvement and I continued taking the Pills, constantly growing stronger, until I had taken seven or eight boxes, when I was completely cured. I could do my work as easily as ever I had done in my life, and the doctor told me that he could scarcely believe the change in me, as he had not had the least hope that I would be strong again. Now I always keep the Pills on hand and if I feel fatigued or weary take them for three or four days so as not to get run down."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

"What a hideous ruffian the prisoner is," whispered the old lady at the police-court. "I feel quite afraid when I look at him." "Hush!" said her husband. "That's not the prisoner. That's the judge!"

A Pill That Lightens Life.—To the man who is a victim of indigestion the transaction of business becomes an added misery. He cannot concentrate his mind upon his tasks and loss and vexation attend him. To such a man Parmelee's Vegetable Pills offer relief. A course of treatment, according to directions, will convince him of their great excellence. They are confidently recommended because they will do all that is claimed for them.

A good bait for a rat trap is a paste, made of corameal and eggs.

Every packet of Wilson's Fly Pads will kill more flies than can possibly be caught on three hundred sheets of sticky paper.

"My hair comes out in handfuls. If it keeps on I'll soon be bald." "Nonsense; if it keeps on you can never be bald."

REST AND HEALTH TO MOTHER AND CHILD.
Mrs. Winklow's Soothing Syrup has been used for over SIXTY YEARS BY MILLIONS OF MOTHERS FOR THEIR CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, AND IS THE BEST REMEDY FOR DIARRHOEA. IT IS ABSOLUTELY HARMLESS. Be sure and ask for "Mrs. Winklow's Soothing Syrup" and take no other kind. Twenty-five cents a bottle.

QUITE TRUE.

"Worry wears out more people than work does," said the ready-made philosopher. "Of course it does," replied Mr. Growcher; "for the simple reason that so many of us would rather put in our time worrying about work than doing it."

HORSEFLESH IS CHEAP.

Is Eaten by Poor People of Most European Countries.

The sending of British commissions and delegations to Germany to investigate material conditions has been all the fashion. Political parties and leagues and societies advocating this or that have had inquisitors ransacking the fatherland from frontier to frontier, and their findings have been embodied in tons of reports, some instructive, but most of them unconvincing and stupid.

Hundreds of "Free Trade Leaguers" and "tariff trippers" have sought the secret of German prosperity, and their junketings have produced deductions wonderfully expressed, as might have been expected, the predilections of the visitors have found ample support as a consequence of the investigation. Free traders discovered that Germany was not prospering because of protection, and vice versa. Employers of labor invariably learned that the toiling masses were poor than at home. In fact, every investigator seemed to discover what he wished to find. Nearly every delegate published his "report" with the result that England has had a plague of leaflets. Hundreds described what they believed they saw, but one tripper tersely told what he did not see, and this was the best report of the avalanche. Here is what he said of Germany: "No unemployed standing at street corners. No drunkenness or brawling. No alcoholism. No slums of poverty, as in England. No discourses. No begging or hawking. No deformed persons. No land out of cultivation. No ragged children. No late trains."

The alarming discovery was made that thousands of poor subsist on horseflesh, and, to prove the horror, scores of investigators brought home the public advertisements of horseflesh merchants. These produced an outburst of righteous indignation. About a hundredth part of the meat eaten in Germany is horseflesh. It is sold openly as such, and it is held to be wholesome and palatable, and is rigidly inspected by health officials. Probably every Continental country has people who eat horseflesh on account of its cheapness. (In Germany it sells at 8 or 10 cents a pound). Other British investigators pounced upon the black bread as unfit for human beings, comparing it detrimentally with the armor-coated loaves of rural England.—Review of Reviews.

A Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Thousands can testify as to its power in allaying pain, and many thousands more can certify that they owe their health to it. Its wonderful power is not expressed by its cheapness.

Public baths for dogs have been opened at Munich, in Germany.

Minard's Liniment Cures Diphtheria.

During the month of April, gold weighing 18,081 ounces, and valued at \$373,295 was found in New Zealand.

Murine Eye Salve in Aseptic Tubes, 25c, \$1.00. Eye Books and Eye Advice Free by Mail. Murine Eye Remedy Co., Chicago.

THE CRY "HURRAH!"

"Hip! Hip! Hurrah!"—the distinctly British cry—is surprisingly modern. The "Hip!" and the "Hurrah!" do not seem to have come together before the nineteenth century. In the eighteenth century "Hip!" amounted to just "Hi!" or "Hullo!" while "Hurrah!" was then usually "Huzza!" It is very like the Cossack shout "Ora!" but it is supposed to have been a German cry of the chase, adapted by German soldiers to war, and borrowed from them by the British, perhaps first of all at the time of the Thirty Years' War. "Hurra!" is said to have been the battle-cry of the Prussians in the War of Liberation (1812-13). Still, the curious fact that seventeenth and eighteenth century writers call "Huzza!" a sailors' shout lends support to the conjecture that it may really have been the hoisting cry. "His-sa!"

HAD NO CHANCE.

A husband was being arraigned in court in a suit brought by his wife for cruelty. "I understand, sir," said counsel, addressing the husband, "that one of the indignities you have showered upon your wife is that you have not spoken to her for three years. Is that so?" "It is," quickly answered the husband. "Well, sir," thundered the counsel, "why didn't you speak to her, may I ask?" "Simply," replied the husband, "because I didn't want to interrupt her." Case dismissed.

Globetrotter—"You say this is a healthy climate, but look at your graveyard. It's full of graves." Cowboy—"That ain't got nothin' to do with the climate. None o' them fellers died a natural death."

A Safe Pill for Suffering Women.—The secluded life of women which permits of little healthful exercise, is a fruitful cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience. Parmelee's Vegetable Pills will correct irregularities of the digestive organs and restore health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

Mrs. Dunnit—"How did you make your husband cut off his beard?" Mrs. Stoppit—"I gave him a diamond scarf-pin for a birthday present."

Minard's Liniment Cures Distemper.
"Mamma, mayn't I go to the fancy dress ball as a milkmaid?" "You are too small." "Well, can't I be a condensed milkmaid?"

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Gray's Worm Expeller will relieve them and restore health.

The way out of trouble is rougher than the way in.

Minard's Liniment Cures Colds, Etc.
HIS BIT OF LUCK.

After suffering a roaring toothache for fourteen days, Tommy consented to visit the dentist's. "But he'll kill me!" asserted the nervous youngster on the verge of tears. "I know he'll kill me!" But it was a case of choosing between two evils. He went with his nurse, and when he returned, greeted his mother beamingly. "Not dead?" bantered mamma. "No," answered Tommy; "cos just before the dentist killed me the tooth came out!"

A BIT TOO BAD.
"You look very tired," remarked James to his friend Pilsen. "I'm nearly dead," replied the tired one. "Last night I didn't get a wink of sleep because Johnson's cat was howling so."

"Couldn't you do anything?" "Wait. I got up, opened my window, and heaved a boot at the cat, just as Johnson came out to bring the cat in." "Wasn't that all right?" "No. The boot hit Johnson, and he threw it back over the wall and broke my cucumber frames. But that wasn't the worst." "What happened then?" "Why, he went back indoors and left the cat howling away outside!"

Is often said of Post Toasties when eaten with cream or rich milk and a sprinkle of sugar. That's the one for housekeepers who want to please the whole family. Post Toasties are ready to serve direct from the package—

COULDN'T BELIEVE HIM.

Bill was a Far West cowboy, and noted for his craftiness. It was impossible to trust him. He got finally into the toils of the law, and at his trial he pleaded guilty.

He did well, for the case against him was strong and irrefutable. Nevertheless, the jury in its verdict declared him innocent.

The Judge was thunderstruck. "Innocent!" he said. "Innocent! But the man himself pleads guilty."

"We know that," said the foreman of the jury, "but he is such a liar that we can't believe him!"

Very many persons die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. If attacked do not delay in getting a bottle of Dr. J. D. Kellogg's Dysentery Cordial, the medicine that never fails to effect a cure. Those who have used it say it acts promptly, and thoroughly subdues the pain and disease.

"Don't mope around the house, Tommy. Why don't you go and play with Willie?" "Cos I played with Willie yesterday, and I don't suppose he's well enough yet."

Minard's Liniment Co., Limited.
Gentlemen—I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the everyday ills and accidents of life I consider it has no equal.

I would not start on a voyage without it, if it cost a dollar a bottle.

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him. His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race. If the housekeepers of Canada will use Wilson's Fly Pads persistently, this peril will be tremendously reduced.

LANDS ARE SECOND TO NONE. Hence the astonishing prosperity of our farmers. Why be one of those who know he can do better, yet lacks the spirit to try? There is no risk. Men who come here realize how much of life they have wasted elsewhere. Better write COMMISSIONER, BOARD OF TRADE, Saskatoon, Saskatchewan, Western Canada.

BREAD MANUFACTURING INDUSTRY ESTABLISHED ON SOUND BASIS

Canada Bread Company, Limited, With Its Plants in Larger Cities of Canada Will Have Output of 1,000,000 Loaves Per Week, or Annual Production of 50,000,000 Loaves. Company is in Strong Financial Position.

Toronto, Aug. 7 (Special).—It was a happy suggestion for the consumer of bread which was made to Mark Bredin, of Toronto, some time ago, which suggestion, taking root, has, with the co-operation and financial assistance of Mr. Cawthra Mulock, resulted in the formation of the Canada Bread Company, Limited.

It was only to be expected that sooner or later scientific and sanitary methods would be adopted in the manufacture of the most essential article in the diet of the nation, namely, bread. When one considers the enormous improvements which have been made during the past decade in nearly every branch of industry, he is simply astounded that such an important industry as that of the manufacture of bread should so long have been neglected. In the iron industry, the textile industry, and in scores of other industries there has been introduced during the past few years specialization and standardization. Economies have been effected either through the merging of various interests in such a manner as to distribute operating costs over an enormously larger output than previously, or by various methods which the pressure of competition or the strenuous methods of modern life have brought about.

It would almost seem as though the only business to be neglected was the most important and basic industry of all, namely, that of the manufacture of bread.

LARGE CAPITAL REQUIRED.
That success would attend the efforts of anyone having the capital and the courage to adopt modern methods in the conduct of the bread industry was a foregone conclusion, but for some reason or other, although the idea had frequently been discussed and several efforts were made towards the end referred to, all of these came to naught until Cawthra Mulock, co-operating with Mark Bredin and

other enterprising bread manufacturers, devised a plan to bring together several of the largest and most up-to-date plants in the city of Toronto. In order to get the full advantages for the purchasing department, it was advisable to bring in also as many of the businesses in other cities as were acceptable, the result being that a large Montreal bakery and a large Winnipeg bakery were included.

COMPANY IN STRONG POSITION.
The Canada Bread Company starts with an enormous advantage over any other business of a similar character in the Dominion of Canada. At the outset is its enormous requirements, and the advantages which will result in the purchasing department. In a business which expects to shortly consume such enormous quantities as 520,000 bags of flour, 364,000 pounds each of compressed yeast and malt extract, and 572,000 pounds each of shortening and sugar, to say nothing of coal for fuel, it can be readily appreciated what advantages will accrue in the matter of discounts and cost of material. It should not be forgotten, also, that the business starts with an ample capital to accomplish its financing in the most advantageous manner. After paying for the various plants which are being taken into the consolidation, \$1,000,000 will remain in the treasury of the company for the carrying on of the business and for further extensions, from time to time, to plants, as the same may be decided upon.

Great as these advantages may be, they are not one whit greater than those which will accrue from the adoption of scientific methods of manufacture and from the proper systematizing of deliveries. As may readily be imagined, the cost of fuel is one of the principal items in the cost of bread. Few, however, who have not paid some considerable attention to the question, will be aware of the enormous saving which can be effected through the use of the modern oven—one in which one batch of bread may follow the other without refiring the furnace. It is stated on the best of authority that the employment of these "continuous ovens" reduces the cost of fuel from 15c. per barrel of flour to 5c. per barrel.

The probabilities are, however, that the greatest saving of all may be effected in the matter of delivery. It would appear that the wagons of the average small bakery deliver an average of 1800 or, say, 2000 loaves of bread per week. It is a certainty that the Canada Bread Company will deliver at least an average of over 4000 loaves per week.

These particulars go to show what necessity there was from the standpoint of the consumer for such an organization as the Canada Bread Company, and, at the same time, what profits there will be from the standpoint of the shareholder. With such economies as referred to above, it is not difficult to see that an enormous future is in store for the Canada Bread Company. Because of the adoption of the latest type of machinery and most modern systems, it will not only be able to supply a better quality of bread, but the cost of production and delivery will be enormously reduced. It is the expectation of the directors that, from time to time, plants will be established in other centres and that the plants already taken over in the cities of Toronto, Montreal and Winnipeg will be added to at the earliest possible moment.

The company with its existing plants and those which will be immediately erected in Montreal and Winnipeg will shortly have a weekly output of 1,000,000 loaves, giving it an annual production of over 50,000,000 loaves.
