A. C. GALT Barrister, Etc., Rossland. GEOLOGICAL SURVEY.

t Has Been Completed in West Koote-

The party which is engaged on the West Kootenay map sheet of the geological survey is in the city and is quartered at the Alian house. It consists of Mr. R. w. brock, geologist, and Mr. W. W. Leach, topographer. In addition a couple of assistants have been employed. This party has been engaged in making a geo and topographical survey of the West Kootenay district. The work on This sheet had been finished in previous years, as tar west as Rossland, and this season has the map sheet. The particular area covered by the party was from the latitude of Rossland to the North Fork of the Kettle kiver, and from the boundary line north .o the head of the main Kettle River, Fork of the Kettle River as tar as Frank lin camp, at which point there was concamp north to Fire Valley the country rassed through was without a trail. The party was able to take the horses through to Fire Valley by ascending the summit between the east branch of the North Fork and the main North Fork of the lettle River. The line followed was biazed. The work on the West Kootenay

be published some time next summer. There will be a complete topographical and geological map of the West-Kootenay a strict, and also a report in which will be descriptions and maps of the general ecology of the district and descriptions of the particular localities and of the ore or dies. It will give mining men a clear idea of the geological conditions affecting tramway with certain additions to the the ore bodies, and will be of great use as a guide in prospecting.

map sheet has now been finished and v

Mr. Brock reports that considerable shipments will be made from time to time through the surface tunnel at the 250 and along the main Kettle River. He did hot care, however, to speak of the contions in the several sections surveyed re

PRONOUNCED INCURABLE

THE STORY OF MRS. AGNES FORAN, OF HALIFAX.

Following Inflammation of the Lungs a Severe Cough Set in and Her Doctor Said Her Case Was Hopeless-Dr. Williams' Pink Pills Have Restored Her

From the Recorder, Halifax, N. S. Mrs. Agnes Foran, who resides at 21 Agricola street, Halifax, N. S., tells a ion to health, after a protracted and distressing period of extreme illness, and she attributes her present happy condition, under Providence, to the marvellous qualities of Dr. Williams' Pink Pills. When Mrs. Foran was called upon by a repre-sentative of the Acadien Recorder, who stated his mission, she cordially welcomed him to her pleasant home, where in the presence of her mother and sister, she treely told the story of her sickness and recovery. She said: "A few years ago I suffered a severe attack of inflammation of the lungs, and was attended by one of the best physicians in the city. I pulled through, but was left a complete wreck, so that I could not do any work, suffering all the time from palpitation of the heart, nervous prestration and a ringing sound in my head. I also had a distressing cough and for months I never knew what it was to have a good night's rest. For two years my life was a perfect misery to me and under the doctor's orders I took emulsion till I was nauseated with the sight of it, but all to no purpose. My life was despaired of by all my friends whowere assured by the doctor that my case was beyond the reach of human skill. I was visited by the clergy of my church and Sisters of Charity, who were very kind and sympathetic and looked upon me as one whose early race was about run. I experimented with all sorts of remedies for my cough, but without avail. My druggist at last advised me to try Dr. Williams' Pink Pills. Being tairly discouraged, nevertheless I was persuaded to make the trial, when to the surprise and joy of myself, family and friends, I began to get better, and by the time I had taken seven or eight boxes I was as well as you see me now," and she laughingly added, "I think you will admit that I don't look much like a sick woman.' mother, who had been listening to the tale of her daughter's long illness, added: "It just seems like a dream to us an that we once despaired of her life, when we now see her the pink of health.

Mrs. Foran said that when on a visit to England about a year ago she contracted a heavy cold and was threatened with a return of her cough, but she at once got some of the pills and by the time she had reached New York she was as well as over again. She related a number of instances in which she had advised persons suffering from chronic complaints to take Or. Williams' Pink Pills and always with was run down and in a wretched condi-tion of health, but was now a healthy young woman who owed the fact to the use of the pills. When the reporter was taking his leave Mrs. Foran said: "I am very glad to have the opportunity to what Dr. Williams done for me and you can say that I shall ever cease to sound their praises, and tiess the good Lord that they were placed my way at a time when I had not the
