Indigestion Comes With a Debilitated and Run-down Condition of the System and Can Be Cured Through Enriching the Blood

There are many symptoms of indigestion, such as acute pain after eating, belching of wind, nausea and vomiting, bloating and pains in the region of the heart, a dread of food for the misery it causes. Dieting and the use of pre-digested foods may give ease, but can't cure—they only further weaken the stomach. The work of digestion depends upon the blood and the nerves, and the only way to cure indigestion is through a course of Dr. Williams' Pink Pills, which renew the of the Grand Old Flag. The Seal blood, strengthen the nerves and enable the stomach to do its work with ease and comfort. PLAN!

The Interior of a Home is a Reflection of the Aesthetic Life of the Family

Let your wife express herself, Mr. Husband. Let her plan and figure out a furniture plan which when completed will lead her to say, "I am not ashamed to have anybody see our home."

When a woman can say that and mean it, it proves that some one has put time and thought on planning the furnishing of the home. It may take several years to arrive at the point where her plan is fully worked out. But it is worth the effort. The plan she adopts will, of course, be laid according to the family purse. But is surprising what real study and thought will do toward improving the appearance and comfort of your home.
