The Oven is Telescopic, and so arranged that the end with the lining may be drawn out, the soot and ashes removed—at the same at time the lining may be turned first one side to the fire, then the other until all four sides

TO THE ELECTORS OF THE COUN-TY OF NORTHUMBERLAND: GENTLEMEN,-You are to be called upon within a few weeks to elect four representatives in the New Brunswick Assembly, and in response to the expressed wishes of a large number of your body I have determined to again offer for the seat which I now bodd.

Having been one of your representatives during the past four years, my record is before you, and while making no invidious comparisons, I feel that I can claim to have acted consistently and in such a manner that while conserving the interests of the Proes TIMOTHY and CLOVER SEED while conserving the interests of the Province, I have also assisted in scenring for my County her full share of consideration in the distribution of public patronage.

It has so happened that I have in the main supported the Government of the day. I did so because I considered that course the best in the interests of the Province as well as of Northumberland, and also because I had no desire to aid in effecting changes of administration simply for the sake of change—and without the prospect of thereby securing either local or general advantages.

Before the effection comes off I hope to visit very many of you, and while I am desirous of seeing and consulting with my friends, I am equally anxious to visit those who may be opposed to me, and answer personally any who may call in question my Political Course.
