Protestant Minister on Anti-Catholic Calumnies.

Catholics know well that one of the hief obstacles to Christian reunion is, so far as Protestants are concerned, the prevalence among Protestants of mistaken, or even slanderous, notions of what the Catholic Church really is and what it teaches. To all acquainted with the extent of this ignorance and misconception the outlook for the removal of this obstacle, by any merely human means at least, is far from bright. But there can be no doubt that one of the first steps towards it must be to have Protestants them-selves begin to realize that they have been unjust in their thoughts about us. The trouble is that most Proestants wholly misunderstand us, and they remain immovably firm in this,

to properly fill its office and functions, it is important that the blood be pure. When it is in such a condition, the body is almost certain to be healthy. A complaint at this time is catarrh in some of its various forms. A slight cold develops the disease in the head. Droppings of corruption passing into the lungs bring on consumption. The only way to cure this disease is to purify the blood. The most obstinate cases of catarrh yield to the medicinal powers of Hood, s Barsaparila as if by magic. simply because it reaches the seat of the disease, and by purifying and vitalizing the blood, removes the cause. Not only does Hood's Barsaparilla do this but it gives renewed rigor to the whole system, making it possible for good health to reign supreme.
