TORY PICTURES

OF THE YEAR OF THE WHACK-

Editor of Evening Telegram. Dear Sir,-The cruelty of the Daily News was clearly shown yesterday when they published a picture of two bags, supposed to contain sugar. Had they shown a picture of two barrels. even had they made one to appear much smaller, they would have saved skill and workmanship into the sad recollections in the minds of many people in this settlement. But bags! Oh my, the very name, not to speak ity to what our grandfathers of a picture of one, reminds us all of used to wear than we have had in Hygiene-Reynold's. the former Tory rule, when we were many years. out a small quantity of flour and other life-sustaining necessaries. But no minds us of all the miseries we endured under the Bag Government be fore We did our duty the last elec tion, and it is a well known fact that Island Cove gave a solid Liberal vot We are not one bit changed to-day and our minds are already made up to do our share in giving the Bag Party a good send off to political darkness. How dare Mr. Robinosn torture us with pictures of bags, whether the contain sugar or an allowance of mea or flour. They might have went fur ther and placed a small piper kettle

victory this fall. While I am writing I might say that Morris's boots shown in the Daily News on Tuesday were really picnick ers' boots, as there was plenty room for boodle in them besides the own er's legs. But the climax was capped and the unkindest cut of all was to picture Sir Edward carrying a flag. I think it was Patsy McGrath himsel who told us some years ago that al that Sir Edward wanted to carry St John's West was a flag and a jar of rum. There was no jar on the picture, but if Sir Edward had on his long boots perhaps the jar was there BRIG IN PORT.—Once a familiar Give up such pictures, Mr. Robinson, or perhaps the Premier will give you a licking as you did the stamps and gun long, long ago, long ago? New Styles for Men Are Now Here.

It is understood that men are still going to wear trousers this fall as before, although some authorities announce that the ultra-stylish men will have their trousers split at the bottoms to harnonize with the slit skirt. Whether they will be much shirred or trimmed is a ques-

Not half so funny as it seems. For it is now a well known fact that men tailors are taking their styles from the styles of women. The silhouette skirt is followed by a narrow trouser. The padded coat for women is followed always by a padded shoulder for

If you don't believe it, keep your eyes open for the next two years and see. It may chap you a bit, but you will find yourself wearing the last season's styles of your wife.

So, judging by the interesting styles that women have been wearing for the past several months, it is fairly certain that this will also be a decidedly inter-

esting season for men. But what is more to the point, the good sane styles in men's clothes, and the bright snappy styles in young men's clothes have arrived at last. And we certainly have all been waiting for them

The summer is always mighty long summer before it is through. And we all are more than ready to get out of our Schools throughout the Island. paggy, saggy, perspiration togas the books are recommended by the C and wear real clothes once more.

Nearly every store for men has something interesting to say for itself right now. The advertising is interesting as well as instructive. Every good Clothing Merchant has done a big lot of work to prepare for the opening

this fall. Fabrics are better than ever. Weavers have put more body and less shoddy through their looms. Manufacturers have put more finished products. We have clothes that come nearer in qual-

compelled to go to some Tory heeler And this is certainly a good Domestic Economy-Chamber's Home Look over the advertising in

this paper now. See what is beluxuries. It might appear sweet to the ing worn this season. And then News man to show a picture of bags go look at the stocks you have become interested in.

A nice suit right now will make you feel more like going in Geography-The New Newfoundland hard and hammering out a big year's work.
