Scotch Herring Pack.

The Spring herring have practicalm salary from five hundred to one Mrs. W. Spurrell, Mrs. A. Miller and ly been shipped and there is a breathisand dollars a year for attending child, Mrs. P. Bragg, Mrs. W. Mason, ing spell new in this industry till the first week in November. The season's hour, or twenty dollars a week for Brown, J. W. Abbott, J. R. Goodyear, operations ran chiefly on split herring, most of which-about 30,000 bar-Perry, J. Winsor, Rev. F. Norris, E. reis, were sent to Halifax, which city Hears Interesting Cheque is at present overstocked with barreled herring. The operation of the oming Fall and Winter as regards scotch Cure herring for New York narket, will largely depend on the ate of the Fordney Tariff as affecting hery products. Even though the luty is imposed, we believe that anyne who packs a good Scotch herring eliable in every detail, will have no ifficulty-in disposing of them at a who will have to pay the duty, and if reason why we, at this end, should get excited over it and give up packing herring. The Americans do not worry when we in Newfoundland have to pay high duties on pork, beef and sugar. The only difference that may be in evidence is that the consump tion of herring will not be as great as heretofore, as there will be less ple who can afford to buy them. If the Bill becomes law, it will not ory, and all herring prointries will be on an equal ting. If the United States herring dealers buy at all, and buy some the must, they will want the best Scotch pack. Newfoundland can give them the best, and therefore we should Green Bay to get ready again for the work and let their motto be "PACK LESS BUT PACK BETTER." Let there be a supervision over every barrel and have no mixtures as to sizes.—Twillingate Sun.
