

THE ONLY  
One Cent Morning Paper  
IN CANADA  
18 KING ST. EAST, TORONTO

FOURTH YEAR.  
A SORROWFUL SATURDAY.

THREE FAMILIES PLUNGED INTO GRIEF AND MOURNING.

Martin Hatched, Alfred Collier and Percy...  
Saturday morning will be termed a day of fatality. Grief and woe were unexpectedly carried into three separate homes, the result of accidents in different parts of the city. The record was augmented yesterday by the finding of an infant's body in a lake. In this case there is no mourning for the dead, as the little one was no doubt ascertained out of this world by some wretched mother. The first accident occurred about 11.30 on Saturday morning, but the victim did not die until 9.30 yesterday morning. At the time mentioned little Alfred Collier, aged 4 years, son of George Collier, laborer, who lives in Front street near Cherry, was supposed to have been riding on one of the cars engaged in drawing barrels from Goodrich & Worts' co-operation to the discharging of a barrel, and that when the car backed in for a load he was jammed against the building. Apparently he did not feel his injuries at the time, for he was found lying in the roadway in Mill street after the accident. He was picked up and ran along the street some 800 yards when he laid down and pressed his hands over his stomach. He was removed to his father's home, where he died at the latter's name. The doctor who attended him said death resulted from contusion of the liver and stomach. His little coffin was being watched over by a large number of neighbors when a World reporter entered the sad home last evening.

Percy Wilby, aged 14, left his father's home, 221 Waverley street, Saturday afternoon, to go to the island. This was the last his family heard or saw of him until yesterday forenoon, when his brother, on reporting his absence at police headquarters, learned that he had been drowned. The brother almost fainted, and cried as if his heart would break. What he returned home with the sad news the grief of the family may be imagined. Particulars as to how the boy met his death are meagre. All that is known is that he was sailing on a raft in the old filtering basin, when he lost his balance and fell into the water, being drowned before assistance could be rendered. Constable Williams recovered the body yesterday after dragging the basin for several hours.

The most painful event of the chapter was that of which Martin Hatched, a mother at 174 Bond street, was the victim. About 7.15 in the evening the deceased having parted with some friends in Spadina avenue, went to the front of the house on the corner of King street, and on his way to the roadway to get a wheel bound car. The car was crowded and the hope of finding room for the front passenger was not to be overestimated. The wheel of the car which was in motion at the time, struck the front of the car which was in motion at the time, and the car was thrown into the air. The driver was killed and the car was crushed. The driver was killed and the car was crushed.

A WIDE WASH OF WATERS.  
Great Devastation Caused by the Mississippi Floods.  
St. Louis, June 24.—Over Crown lake, twenty miles west of here, has swollen so much from the high water in the river that it has overflowed the western bank and flooded the adjacent lowland, doing great damage. The break in the Chicago and Alton track has flooded nearly all the eastern part of Venice and forced many families to vacate their homes and seek safety on higher ground. All the country in the rear and east of Venice is inundated. The amount of farm land on American bottoms now under water is estimated at 2,000,000 acres. The Illinois side of the river, the situation is said to be deplorable. Fully three-fourths of the families in town are quartered in three school houses. Most of these people are in a destitute condition. From this point to the bluff, four miles and southward for ten or twelve miles the entire country is submerged. The little town of Alton, a short distance from Crownedale, is all under water, and its inhabitants move about only in skiffs. The previous estimate of the damage this season is said to be much too low. It is now stated fully 10,000 acres of wheat alone are from two to six feet under water, and as much corn, potatoes and other crops submerged.

THE BOLD MURDER.  
Saw Justices Her Principles in the Foreboding Prospect at the trial of Louise Michel yesterday, endeavored to show the falsity of the charge of pillage against the prisoner. He said that when she was exiled she reduced herself to poverty to aid her fellow sufferers. The prisoner spoke in her own defense. She violently attacked the government and declared that the issue of pamphlets to the soldiers inciting them to burn their barracks and murder their officers, was justified. She declared that she and other revolutionaries had done well to shoot their officers and save their honor. The jury found Louise Michel guilty, and she was sentenced to six years' imprisonment and ten years' police supervision. Of the other prisoners charged with rioting and pillage, Pougnet was sentenced to eight years' imprisonment and ten years' police supervision, and Menet to a year's imprisonment.

OFF FOR WIMBLEDON.  
Departure of the Canadian Team on Saturday.  
MONTREAL, June 23.—The Wimbledon tennis team which has been practicing at the Point St. Charles ranges for the past week, left by the Grand Trunk 10 o'clock train last evening for Quebec, whence they this morning embarked on the Allan royal mail steamship Sardinian for Liverpool. A large number of the officers and members of the city volunteer corps were at the station to wish their comrades success, and to wish them good luck on their way to the depot the team received three cheering cheers. The officers and members of the 5th Royal Scots attended in force and gave Sgt. Smith, the representative of the

THREE FAMILIES PLUNGED INTO GRIEF AND MOURNING.

regime and of Montreal, on the team, a special occasion. Prior to the departure of the team Lieut. Col. Omer of the Queen's Own Rifles, the commander of the team, in conversation said that, judging from the result of the week's practice, the team would give a good account of itself on Wimbledon common. Some remarkably good scoring was done during the week and the members of the team stated to their work with commendable persistency. He remarked that the scoring during the week, if made public, would cause surprise by its uniform excellence. The gallant colonel spoke very hopefully of a marked improvement in the long-range shooting, which he looked upon as a direct result of this year's practice, which was undertaken mainly to familiarize the members of the team with the 900 and 1000 yards ranges, there being only a couple of ranges in Canada where there is an opportunity for shooting at these distances. The first accident occurred about 11.30 on Saturday morning, but the victim did not die until 9.30 yesterday morning. At the time mentioned little Alfred Collier, aged 4 years, son of George Collier, laborer, who lives in Front street near Cherry, was supposed to have been riding on one of the cars engaged in drawing barrels from Goodrich & Worts' co-operation to the discharging of a barrel, and that when the car backed in for a load he was jammed against the building. SUBSCRIPTION  
THREE DOLLARS A YEAR  
TWENTY-FIVE CENTS A MONTH  
DELIVERED BY CARRIER  
18 KING ST. EAST, TORONTO

PRICE ONE CENT

WHAT THEY ARE SAYING.  
I was a Mignottier than Col. Otter—500 strong—  
D. D. G. M. Jno. Fisher.  
I think I upheld the dignity of grand lodge with my plying hat and white tie—J. Ross Robertson.  
No, too, but I could have preached as good a sermon myself—John George Burns.  
Bro. Doward can play nearly as well as I can—Grand Organist Malton.  
I wish they would turn out every Sunday—Grand Lecturer Wilkinson.  
The procession looked more imposing than a string of sausages—J. B. Nixon.  
I would have looked better on horseback—Director of Ceremonies Masley.  
But you ought to have had a black suit and a plug hat—Tom McMillan.  
I had a queer notion during the service—Bro. Alderman Saunders.  
Collector Paton would have been proud of me—Bro. Bargant.  
I looked pretty well myself—Bro. Blackwood.  
I'm not very tall, but I kept up with the procession—F. J. Menet.  
I was a high-toned lodge—W. Ionic Rod.  
It was I who suggested the service—Bro. Wilbur Grant.  
I'm sure father was proud of his Andrew today—Bro. Park.  
Masonry is a great savings bank—Bro. Moonshellder.  
I'll put the water off anybody who speaks ill of the craft—Bro. Joe Balfan.  
I walked off this way from Parkdale to be on hand—Geo. J. Bennett, of Alpa.  
It was not nearly as lively as the procession from Ridgeway—Bro. Wm. Fawcett.  
These processions are good for the trade, and the longer they are the better—Bro. Paton, of Stevenson.  
I'm sure father was proud of his Andrew today—Bro. Park.  
I'm sure father was proud of his Andrew today—Bro. Park.
