**WOMEN JURORS WEEP, BUT FIND SLAYER GUILTY**

Recommend Hanging As Fit Punishment For Bandit.  
SEATTLE, Wn., Jan. 28.—It took a jury composed of five women and eight men just 54 minutes yesterday to convict John Schmidt, alleged bandit, of murder in the first degree, with a recommendation for hanging, at his trial on the charge of killing Police Detective James O'Brien in a pistol fight last Friday.

Two of the women jurors were weeping when the verdict was read.

**FORD PLANT TO REOPEN**

Resumes At Detroit On Monday With 25 Per Cent. of Force.  
DETROIT, Mich., Jan. 28.—Partial resumption of operations by the Ford Motor Company on January 21 was announced to-day. At the Highland Park plant 25 per cent. of the force will return to work, while full operations will be resumed in the tractor plant at River Rouge. A number of foremen and others returned to-day to prepare for the resumption on Monday.

No announcement was made as to when the force at Highland Park plant would be further increased. The plant has been closed since December 21, upwards of 55,000 men being rendered idle.

**NO CHANGE IN CANADA**

WINDSOR, Jan. 28.—Interviewed to-day as to whether or not the Canadian Ford plant would reopen on January 31, in accordance with the rumored opening of the Detroit plant on that date, officials of the Canadian plant stated that there would be no change in the policy of the local factory for the next two weeks at least.

**ACCUSED OF HIGH GRADING.**

COBALT, Ont., Jan. 28.—Aron Peterson, a Swede, two months in Cobalt, is in jail here facing charges of high grading from the Nipissing mine. When arrested yesterday Peterson had one pound of ore in his pockets and 11 pounds were found at his lodgings.

**Boils So Bad HAD TO GIVE UP WORK**

From the days of Job, up to the present time, boils have been one of the afflictions of the human race. All the poulticing and lancing you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over 40 years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Mr. James Fahey, Newport Island, Que., writes: "I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two, the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

B.B.B. is put up only by The T. Milburn Co., Limited, Toronto, Ont.—Advt.

*McLagan-Fletcher*  
**TONE ARM**

Hexagonal in Shape; Continuous in Construction - - - - Why?

**T**HE McLagan Tone Arm is different! It is not round, but hexagonal in shape. Six sided!

This absolutely prevents the passing tonal waves from wasting or losing their strength by setting up any vibration.

Place your finger on some round tone arms when playing and you can feel the vibration—useless waste of volume and detail.

Place your finger on a McLagan Tone Arm, and you will feel no vibration. The sound waves are gathering volume, gaining in velocity—not losing their strength.

It has no loose joints. Nothing to rattle. No tone leakage.

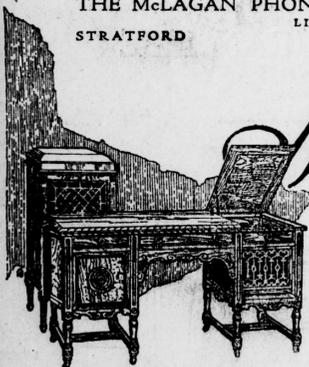

It gives direct passage to the sound waves. Is free of twists or tortuous turns. Free opening at the base; no obstructions whatsoever to impede the course of the tonal waves, or to detract from their clarity.

The Tone Arm moves smoothly on a ball-bearing base. No friction. No extra strain on needle. No unnecessary wear on records. But above all, it means reproduction free from surface noises.

The adjustable ring weight at the base of the tone arm gives the exact weight required for the perfect rendering of any make of disc record.

Call on any McLagan dealer. Ask him to demonstrate the Tone Arm and other exclusive McLagan features. Then judge for yourself.

*Pioneer Days in Flour Making*

HUNT'S Diamond Flour was being used in the homes of Western Ontario long before Upper Canada had adopted the decimal system of currency.

The people of that day and generation paid for their Diamond Flour in pounds, shillings and pence. Port Stanley was a harbor to which hundreds of sailing vessels came for cargoes of wheat, while miles of farmer's wagons stretched over the "old plank road" waiting to unload their grain.

The first Hunt mill was built near Port Stanley in the early fifties. Its success quickly led to the erection of the first London mill in 1854. Today's 1,200-barrel-a-day mill is the latest development in the steadily increasing demand for Diamond Flour.

Sixty-six years of flour milling service in Ontario have firmly established the high quality of Diamond Flour in the favor of flour users everywhere.

Diamond Flour is becoming known as a household word in Greece, Spain, the British Isles, but, of course, it will always be best known as the favorite flour of Ontario.
